SYNOPSIS.

THE CITY. Another victim of the collision between electric car and train at Onocenta Park dying. All the others probably will recover. Two members of Republican Congressional Committee go on record as opposing unfair call for country primaries; date may be changed. Capt. H. H. Sinclair of the yacht Langlesea tells of the great race to Honolulu which his staunch vessel won. How W. H. Fraser, noted Ohio artist, dies suddenly a few hours after his arrival in Los Angeles. Fire on East Second street causes loss estimated at \$20,000. "Commodore" S. J. Hill, veteran police officer, succumbs after long illness. Annual tennis championship play begins at Ocean Park today. Santa Monica wins deciding cricket game from Los Angeles. Reeling amateur baseball at Chutes Park. Woman who refused to part with her child.

...to establish tuberculosis camp. Death of Mrs. R. W. Fridman. Congregation of Temple Baptist Church dedicates portion of main sanctuary new building. Brave sailor wins a life at Redondo, and then returns to tell his name. Five men wounded in knife and pistol fight at Ocean beach early. Engineers for doing important preliminary work along line of Owens River conduit. **SOUTHERN CALIFORNIA.** Cloud-burst in Santa Barbara county causes avalanche of mud to sweep down river valley. Miss Fremont, daughter of the Pathfinder, unveils monument at Town, San Diego, in commemoration of flag-raising by Gen. Fremont thirty years ago. When negroes and band are arrested near Oxford the woman slides \$500 worth of jewelry in mouth. Bishop Hamilton addresses great gathering of people at Methodist camp meeting at Huntington Beach. Wife of jealous husband Avalon tries to end her life by drinking carbolic acid. Mystery wraps the identity of builders of railroad line engaged in war with rival Port Los Angeles. Long Beach steaming crew kept busy rescuing swimmers who got beyond their depth. Pasadena Board of Trade will meet today to discuss plans for park and municipal affairs. Deputies of the place attachment on the box office of all the Midway shows at Ocean.

PACIFIC SLOPE. Sixteen hundred mill laborers and payers will go on strike in San Francisco today, resulting in building. Robert Carter, A. G. Mosby probably fatally shot. The salmon pack from Alaska about the same as that of last year. Crutcher Milwaukee returns to San Francisco after successful trial at San Francisco. H. E. Wright thumps Mr. Ward at San Jose for alleged murder of his wife. There is a big haul of gold to Seattle from Alaska. More wrecks occur near Redondo.

GENERAL EASTERN. A new political party is said to be forming that will cause an "upheaval" in the national camps. Standard Oil is to be making from \$50,000,000 to \$100,000,000 a year with declaration of enormous dividends. W. E. Craig, a cousin of the late Russell Sage, says "he does not intend to touch the old money." Ticket brokers in the country accuse the railroad of conspiracy with them to get business. Youngsters, who had been in the incubator at Dreamland, New York, returned to the place on a visit. Threat of Gov. Felt to remove the bondsmen in the liquor case causes the saloon to be guarded by a detachment of police. Sunday. Two fishing yachts are wrecked off Angeles and eight persons are drowned. Boat containing persons overturns in Lake Hopak, N. J., and three lose their lives.

FOREIGN. Secretary Root is to attend a banquet in Rio Janeiro, the celebration of which cost \$100,000. The Bulgarian population of Philippopolis engages in a demonstration and kills three Greek churches, two persons are killed in collision of automobiles. Latest charge is that the Bulgarians were dissolving the ground of the public treasury. The Austrian national Hapsburg by mistake fired the Springfield-Karl, injuring several persons. Tatars bombard Shusha for three days, finally setting it on fire. Bulgaria has been released from its position on the bank at Jamaica.

LOST OFF LANGLESEA

Two New Jersey Yachts Upset.

Seven Men of the Nora Drown and One Man of the Alvin B.

Heroic Capt. Ludlam and the Crew of Five Life-Savers Pick Up Perishing.

Amateur Fishermen Sink in Struggle With Waves. Other Disasters.

(BY THE ASSOCIATED PRESS—P.M.)
ANGLESEA (N. J.), July 29.—Two yachts, coming in from the fishing banks, capsized on Hereford Inlet Bar, off here today, and so far as can be ascertained tonight, eight persons lost their lives.

There were thirty persons on one yacht, of whom seven were lost, and twelve on the other, all but one of whom were saved.

That not more fell victims to the rough sea was due to the heroism of Capt. Henry S. Ludlam of the Hereford Inlet life-saving station and a crew of five men.

It was at first believed that from fourteen to twenty-eight persons had been lost, but after an investigation, the coroner tonight stated that he thought only eight were lost. His list is as follows:

Bodies recovered:
FREDERICK FISHER, SR., Philadelphia.
HERBERT HAMMILL, Lansdale, Pa.
WALTER SNYDER, Philadelphia.
JOHN FOGARTY, Haverford, Pa.
J. STARKY, Philadelphia.
JERRY DONOHUE, Philadelphia.
Unknown man.

Another victim of the rough sea was the sloop yacht Nora, which had on board Capt. Herbert Shivers, his mate and thirty passengers. The other was the sloop Alvin B., with a party of twelve. Just as the Nora was about to go over a sand bar, a heavy squall struck her. As the craft keeled over, she was hit by a huge wave. The Nora turned completely over, throwing the thirty-two occupants into the sea. The mast snapped off short.

The heavy sea probably was responsible for the saving of most of the eighteen survivors, as the waves were so rough that the upturned yacht was tossed about, thus uncovering the struggling victims caught underneath.

LOST ONE BY ONE.
In the unequal fight against the elements, the struggling men disappeared one by one, until only eighteen were left clinging to the boat.

After hanging to the yacht for nearly an hour, a government lifeboat, commanded by Capt. Henry S. Ludlam of the Hereford Inlet life-saving station, hove in sight, and after some maneuvering managed to get close to the capsized vessel.

FOUR MEN LET GO.
He was not a moment too soon, for as he came within a boat's length of the Nora, four men, weakened from exhaustion, let go their holds and began floating by.

Capt. Ludlam threw his boat around, and the four half-drowned men were drawn out of the water. Then, at the risk of their own lives, the rescuers went after the other men, and pulled them into their boat.

Shortly after the survivors of the Nora were brought ashore, the other yacht, the Alvin B., was seen to capsize about a mile above the place where the Nora went over. There were several boats in the vicinity at the time, and all but one person was saved.

THREE DROWN IN HOPAKIN.
BOATMEN INEXPERIENCED.
(BY THE ASSOCIATED PRESS—P.M.)
NEW YORK, July 29.—Three of a party of six persons who were boating on Lake Hopakin, N. J., today, were drowned when their craft capsized through the apparent inexperience of the men who had undertaken to handle the boat. The dead are:

GEORGE LATT, 24 years old.
MISS MAY KLEMMER, 20 years old.
MISS BERTHA SMITH, aged 22 years, old of Brooklyn.

Of the rescued, John O'Connor, 24 years old, and Paul Revere, 24, are in a serious condition.

POWER BOAT LOTUS MISSING.
FEARS FOR CREW.
(BY THE ASSOCIATED PRESS—P.M.)
CHICAGO, July 29.—The power boat Lotus, one of a fleet of five that left

here, Saturday, on a race to Muskegon, Mich., is missing tonight and fears are entertained for the safety of her crew. The Lotus is owned by former Chief of Police George Hubbard.

Later: The motor boat Lotus arrived here safely tonight.

PLUMP FRUIT OF THE INCUBATOR.

THIRTY BOUNCING YOUNGSTERS APPEAR AT DREAMLAND.

Conny Island's Life-Saving Service for the Infant Class Shows Prize-Pumpkin Work in the Size of Developing Human Product—Doctors Come to See.

(BY DIRECT WIRE TO THE TIMES.)
NEW YORK, July 29.—(Exclusive Dispatch.) Thirty bouncing youngsters, who, as tiny infants, spent their first days in the incubators in Dreamland, Conny Island, visited their old home there yesterday. From early morning the institution was crowded by physicians from many parts of the country, who came to examine the children, and the consensus of opinion among them is that every large city should be provided with like institutions to save human life.

The youngsters who attracted most attention were Antonio Martorelli, 2 years old, who weighs fifty-four pounds, and weighed a pound when he entered the incubator, one day old; Ethel Gotha, 13 months old, who weighs twenty-four pounds; William Anderson, of Brooklyn, who weighs fifty-five pounds now, although he tipped the scales at just one pound in 1904; Margaret Kahra, daughter of H. A. Kahra of Avenue A, and little Dorothy Miller, who, when she went to the institution in 1906, weighed less than a pound.

BOMBARDMENT OF SHUSHA.

Tartars Besiege the Armenian Town Three Days and Finally Set It Afire—No Making Peace.

(BY THE ASSOCIATED PRESS—P.M.)
TIFLIS, July 29.—Advices received from the Armenian town of Shusha, 120 miles to the westward, announced a renewal of hostilities between Armenians and Tartars. Shusha was bombarded three days with twenty-one guns, and finally set afire. Today, the Viceroy received a telegram stating that the hostilities had ceased and that five representatives of each race had been selected to draw up conditions to ensure a lasting peace in the district.

WENT TO ANOTHER CHURCH.

The President Attends Services in His Honor at the Oyster Bay Presbyterian Church.

(BY THE ASSOCIATED PRESS—P.M.)
OYSTER BAY, July 29.—The President and family attended service today at the Presbyterian Church, and listened to a sermon by Rev. Charles L. Thompson, secretary of the Board of Home Missions. The President usually attends Christ Episcopal Church, but special services were held today in his honor at the Presbyterian Church.

LONGWORTHS READY TO SAIL.

After Leaving Germany for Paris They Will Arrange Their Homeward Trip.

(BY THE ASSOCIATED PRESS—P.M.)
DAYREUTH, July 29.—With the exception of one day, which was taken up by an automobile excursion to the Austrian baths, Mr. and Mrs. Nicholas Longworth spent the entire week here. They left today by way of Nuremberg and Munich for Paris. They will sail next Saturday for the United States.

SUSPECT HUSBAND OF VICTIM.

CHICAGO, July 29.—The body of Mrs. Ernestine Voss, 45 years of age, was found today in a crisp in the ruins of her home in the northwestern part of the city early this morning. The circumstances of the case have led the police to arrest her husband, John L. Voss, and he is being held pending the result of the coroner's inquest.

OIL TRUST'S EARNINGS.

From Fifty to One Hundred Millions of Dollars Yearly. Enormous Dividends.

(BY DIRECT WIRE TO THE TIMES.)
NEW YORK, July 29.—(Exclusive Dispatch.) There has been considerable speculation, of late, as to the earnings of the Standard Oil Company. Estimates have ranged between \$50,000,000 and \$100,000,000 a year, but the company makes no statements of a financial character.

It is known that the Standard has been making more money within the last few years than ever before in its history, and that it is carrying a huge surplus. One report has it that the surplus includes \$100,000,000 of government bonds.

Within the last eight years, the company disbursed \$341,000,000 in dividends to stockholders.

GRAND DUKES FEARED FOR THEIR POCKETS.

Extensive Robberies of Public Funds Were Known to Parliament.

Proofs Were in the Hands of the People's Representatives That Naval Commander-in-Chief and Intermediaries Received Enormous Bribes—Michaelovitch Is Credited With Stealing Subscriptions.

(BY DIRECT WIRE TO THE TIMES.)
S. T. PETERSBURG, July 29.—(Exclusive Dispatch.) It is learned that the immediate cause of the Douma's dissolution was the great fear felt by the Grand Dukes and high courts of Finland, including Treppoff, that the Douma was about to prosecute an inquiry into their extensive robberies of the public treasury.

The navy was to have been the first subject of the Douma's thorough investigation. Proofs were already in Representatives' hands.

ALEXIS'S FOREIGN BRIBES.

Grand Duke Alexis, naval commander-in-chief, and his intermediaries received enormous amounts in bribes from foreign shipbuilders.

NATIONAL SUBSCRIPTION STOLEN.

The Douma had also a scandal more malodorous, namely that 75 per cent. of the national subscription to rebuild the fleet had been paid into the private office of Grand Duke Alexander Michaelovitch, and that no accounts had been obtainable vouching for its expenditure.

CZAR'S UNCLE CHIEF BOODLER.

Vladimir, the Czar's uncle, has been the chief corruptionist of the imperial band.

The Douma has positive information that since six months after the war with Japan he has transferred more than \$35,000,000 to bankers in London, Paris, Boston and New York.

PROLETARIAT AGITATING.

STRIKE BOUND TO COME.

(BY THE ASSOCIATED PRESS—P.M.)
S. T. PETERSBURG, July 29.—The situation in Russia has grown perceptibly quieter since last Sunday, and at present it does not appear that important developments are likely the coming week. The proletarian organizations are agitating for a simultaneous general strike, which they expect to bring about in a month or six weeks.

SVESKI REGIMENT MUTINIES.

LOCAL TROOPS KILL SEVERAL.

(BY THE ASSOCIATED PRESS—P.M.)
POLTAVA, July 29.—A grave outbreak occurred in the Sveski Regiment, following the arrest of a private of the first battalion who was discovered with some other soldiers in a shed where the revolutionists are in the habit of holding meetings.

After the arrest, the entire first battalion, accompanied by a large crowd, paraded the streets in defiance of the military authorities. The soldiers proceeded to the artillery barracks, where they seized several guns and marched with them to the prison where the political prisoners are confined.

WARSAW TRAIN ROBBERY.

PROBABLY \$10,000 TAKEN.

(BY THE ASSOCIATED PRESS—P.M.)
WARSAW, July 29.—The postal car robbed on the Warsaw-Vienna Railroad, near this city, Saturday night, contained a package of \$30,000 in cash from abroad and at least \$50,000 additional funds. The actual amount taken by the robbers cannot yet be definitely stated, as the documents attached to the money parcels are missing.

TWELVE MEN MIX IN PENOBSCOT MURDER.

(BY DIRECT WIRE TO THE TIMES.)
BELFAST (Maine) July 29.—(Exclusive Dispatch.) The police of two States, Maine and Massachusetts, are working on the mysterious death of Clara M. Braley, the little 17-year-old beauty who disappeared from home last Sunday night and whose body was found on the flats of Penobscot Bay, seven miles east of this city, Thursday night.

Startling developments are promised, and it is rumored that twelve young men of this city may be involved in the case.

That Miss Braley was lured away from her home Sunday night, when she stepped out of the house for a walk, and was chloroformed on the naphtha launch, is the firm conviction of hundreds of people of this city.

DESS PREACHES ANARCHY.

Declares That Moyer and Haywood Must Be Liberated If Revolution Is Necessary.

(BY THE ASSOCIATED PRESS—P.M.)
ST. LOUIS, July 29.—Eugene V. Debs, former Presidential candidate on the Socialist ticket, today in a speech at Riverside Park, caused a stir among the workmen of St. Louis and Illinois, when he advised all workmen of the United States to assist in the freeing of Charles Moyer, W. D. Haywood and George A. Patterson, the three Denver miners confined in jail in Idaho, at any cost, even if it took a revolution to free them.

WELCOME TO ROOT.

Magnificent Spread by Brazilians.

Furnishings of the Palacio Itamaraty Imported at a Cost of \$100,000.

Eighty Covers Laid at the Banquet and Americans Are Chief Guests.

WILD FIGHTS IN LIQUOR WAR.

BLOOD FLOWS OVER ENFORCEMENT OF MAINE LAW.

Constant Conflicts Occur Between Teamsters and Deputies and Larist Is Brought Into Play to Capture Resisting Smugglers—Resistance Is Emphatic Wherever Lid Is Down.

(BY DIRECT WIRE TO THE TIMES.)
BANGOR (Me.), July 29.—(Exclusive Dispatch.) Gun fights, lances, night hawk teamsters, fist fights and smugglers are figuring in the Maine liquor war which is carried on by the Sheriff and large numbers of sworn deputies throughout the State under the Sturge law, and particularly in places where the enforcement fever runs high.

Teamsters, smuggling "boozers" at night from caches in the woods or near the bay shores, when overtaken by deputies show fight, and both sides keep up a running pistol duel until the smugglers either are captured or the deputies beaten off.

The drivers lash out with their heavy whips and in some cases stop at nothing short of murder. Some deputies have taken up lariats throwing along with rifle and revolver use, and last night captured one big wagonload of "red-eye" by the skill of a lariat-throwing deputy, who roped the teamster's horse neatly around the neck and brought the rig up short, pitching ten five-gallon kegs into the road and wrecking the engine.

GORKY CALLED POLLUTER.

Bishop McPaul Addresses American Federation of Catholic Societies at Buffalo.

(BY THE ASSOCIATED PRESS—P.M.)
BUFFALO, July 29.—The fifth annual convention of the American Federation of Catholic Societies opened here today with a mass meeting at Convention Hall. Archbishop Messmore of Milwaukee and Bishop McPaul of Trenton, the joint founders of the movement, responded to addresses of welcome.

Bishop McPaul spoke against the evils of Socialism and divorce.

"The stability of this nation rests upon the American home," he said. "Socialism would strike just her foul hands upon the property of our people. Look at Maxim Gorky, the Russian Socialist, coming to America to ask us to turn upon Russia. See him living with a woman who cannot be recognized as his wife. That villain and scoundrel and polluter of womanhood would preach to us the gospel of human liberty."

MUST SEPARATE STATISTICS.

BUENOS AYRES, July 29.—(Exclusive Dispatch.) The British legation here has been requested by the government henceforward to put its official statistics of imports and exports to be issued separately from those of the United Kingdom.

COUSIN CALLS SAGE MISER.

W. E. Craig, Former Office Boy for Millionaire, Glad He Is Left Out.

(BY DIRECT WIRE TO THE TIMES.)
CRIPPLE CREEK, July 29.—(Exclusive Dispatch.) W. E. Craig, a cousin of the late Russell Sage, and thirty years ago an office boy of the multi-millionaire, instead of lamenting over being left out of the latter's will, says: "You couldn't hire me to touch a penny of the old miser's money." Craig is in the mining business.

SEARCH FOR MILLIONS.

(BY DIRECT WIRE TO THE TIMES.)
NEW YORK, July 29.—(Exclusive Dispatch.) Executors and attorneys will begin in earnest their search for the millions of the late Russell Sage. Months may elapse before the story of these vast holdings is told, but from reliable sources it has been learned that the bulk of the fortune is invested in gilt-edged railroad bonds and debentures. Those in a position to know, declare that no fortune ever was better or more conservatively placed, and that the list of the securities will be in itself a tribute to the wonderful acumen and sagacity of the dead financier.

THREAT TIGHTENS SUNDAY LID.

Gov. Folk Causes Liquor Dealers to Quit in St. Louis by Aiming at Bondsmen.

(BY DIRECT WIRE TO THE TIMES.)
ST. LOUIS, July 29.—(Exclusive Dispatch.) With the Sunday lid on tight, St. Louis and the whole country was today the driest spot in Christendom. Senator Gardner, attorney for the St. Louis County Liquor Dealers' Association, did with a stroke of his pen what the county and State officials had failed to do. He sealed the lid tight.

It is said Gov. Folk's threat to seal the bondsmen of all corporations and places where liquor was sold had the effect of bringing the dealers to a realization that it was time to obey the law.

WELCOME TO ROOT.

Magnificent Spread by Brazilians.

Furnishings of the Palacio Itamaraty Imported at a Cost of \$100,000.

Eighty Covers Laid at the Banquet and Americans Are Chief Guests.

Secretary's Speech on New Diplomacy Hailed as a Masterpiece.

(BY DIRECT WIRE TO THE TIMES.)
10 JANERIO, July 29.—(Exclusive Dispatch.) The banquet given by Baron Rio Branco, Minister of Foreign Affairs, in honor of Secretary Root, at the Palacio Itamaraty, was of a magnificence unparalleled in Brazil. The furnishings for the occasion were imported especially from Paris, at a cost of \$100,000.

Eighty covers were laid, and the guests were Americans, Deputies, Senators and representatives of the army and navy.

Secretary Root, who arrived at the palace in a carriage built for the occasion, at a cost of \$12,000, took Mrs. Asa Brazil in to dinner, and Mrs. Root was escorted by Baron Rio Branco.

In his toast to President Roosevelt, Baron Rio Branco said that America was the first to recognize the independence of Brazil and Brazil was the first, in 1924, to recognize the Monroe doctrine.

ROOT'S MASTERLY REPLY.

Secretary Root's speech is regarded as a masterpiece.

"I am deeply stirred," he said, "by this honor to my country and myself. It reminds me of the change from monarchical days. Today, the judgment of the people makes foreign affairs. The new diplomacy is truth. The people demand the truth."

"It is on account of the desire of the American people to exhibit their friendship for Brazilians that I am here. On such an occasion, when eighty million Republicans greet twenty million brothers, it is appropriate that we should remember the great man who promulgated the grand thought of protecting the American republics. I drink to the memory of James Monroe."

SENATOR BARBOSA RESPONDS.

Senator Ruy Barbosa of Bahia, the greatest orator and scholar of Brazil, answered.

"This is the most eminent landmark of Brazilian history," he said. "Our age is small, but minutes are epochs. Today, we open our arms to our sister republics."

STUDENTS MADE A DEMONSTRATION.

In the street in front of the palace and Secretary Root addressed the crowd briefly.

PRAISE FROM CUBA.

Señor Quesada, Cuban Minister to the United States, made an impressive address.

"You see in Cuba," he said, "an expression of American greatness and honor. All prophesied territorial aggrandizement on the part of America, but the world was ignorant. Let us honor and praise our protector and benefactor."

RIO'S GREATEST SOCIAL EVENT.

Editorials in all the papers say that President Alfons's reception to Secretary Root and family was the greatest social event in Rio de Janeiro's history.

The two hours secret meeting of Secretary Root, Baron Rio Branco and Señor Nabuco, yesterday, is supposed to have been concerned with the Pan-American conference.

Secretary Root expresses amazement at the improvements, costing \$100,000,000, by which a hill is being removed to admit the sea breezes.

Mrs. Root is delighted with the attention and courtesies she has received.

NEW PARTY TO WHOOP THINGS.

Upheaval in National Politics Is Promised.

Many Members of Old Organizations to Desert.

Bryan, Hearst and La Follette Are Mentioned.

(BY DIRECT WIRE TO THE TIMES.)

OMAHA, July 29.—(Exclusive Dispatch.) What its promoters promise will be an upheaval in national politics, the equal of which has not been seen since the formation of the Republican party in 1856, is a movement now under way to form a new national political party.

Behind this movement are men from all the parties of the time, assisted by political economists and thinkers. The organization of this new political force already is completed, according to its promoters, and arrangements have been made to launch it when the proper time comes. Its membership is announced as already more than one million, divided into different organizations and followers of different leaders, but ready when the time is ripe, to be thrown into a single organization.

Some of the men who are said to be leading this movement are: Senator La Follette of Wisconsin; George Fred Williams of Massachusetts; William Randolph Hearst of New York; Thomas H. Tibbles of Nebraska; Hoke Smith and Tom Watson of Georgia; Gov. Folk of Missouri; Gov. Hanley of Indiana; and Gov. Cummins of Iowa.

William J. Bryan was in London when an account of the combination met him, talked the matter over thoroughly, and was practically assured of Mr. Bryan's support.

WILLIAMS MAKES DENIAL.

(BY DIRECT WIRE TO THE TIMES.) BOSTON, July 29.—(Exclusive Dispatch.) George Fred Williams denies the report that a new wing of the Democratic party, made up of radical elements, is in formation or in contemplation.

"I have not the slightest information of any such movement," said Williams, "and you can say for me that any such movement would be political suicide, when Bryan has the Democratic party, both the radicals and the conservatives, behind his candidacy."

TEXAS DEMOCRATS' PRIMARY.

CAMPBELL IN THE LEAD.

(BY THE ASSOCIATED PRESS-P.M.) DALLAS (Tex.), July 29.—An exceedingly large vote was polled yesterday in the Democratic state primary election, the first to be held under the so-called "Texas" election law, some 275,000 votes being cast throughout the state. Returns covering about one-tenth of the vote cast show that T. M. Campbell is slightly in the lead in the contest for the gubernatorial election, with J. M. Brooks running second. In this contest there were four contestants, C. L. Bell, J. M. Brooks, O. F. Colquhoun and T. M. Campbell.

Candidates for Congressmen and a United States Senator will be selected. Senator Bailey has no opponent, and of the Representatives, only Smith, in the Sixteenth District; Gillespie, in the Twelfth; Randall in the Fourth; Brooks in the Second; Gregg in the Seventh, and Burgess in the Ninth have opposition. Returns at this point make it certain that Burgess, Gillespie and Gregg have been renominated.

ENGINE PLUNGES INTO HUDSON.

PACIFIC EXPRESS TRAIN STRIKES SLIDE NEAR POUGHKEEPSIE.

Tons of Earth Swept Down from High Embankment by Heavy Rains. Fireman Killed, Engineer Fatally Injured and Fifteen Passengers Seriously Hurt.

(BY THE ASSOCIATED PRESS-P.M.)

FISHKILL, LINDEN (N. Y.) July 29.—Pacific Express train No. 37 of the New York Central and Hudson River Railroad, which left the Grand Central station in New York at 9:30 o'clock to-night, was wrecked shortly before midnight, a short distance above Chelsea, and eleven miles below Poughkeepsie, by running into a landslide which had been swept down from a high embankment by a terrific rainstorm this afternoon.

The engine of the flyer was thrown from the rails, and plunged into the river. Fireman Mills was killed outright, and Engineer Edward Wells was so badly injured that he will die. Fifteen passengers were seriously injured, and a score of others received minor hurts. The most seriously injured are: EDWARD KELLY of Poughkeepsie, will die. MRS. AUGUSTA HEARTH of Schenectady; arm broken. MRS. WARREN REYNOLDS of Peekskill, N. Y.; arm broken and legs lacerated. OXFORD PETERS, Schenectady; arms broken. HENRY TAYLOR, Poughkeepsie; leg broken.

The injured were taken to Highland Hospital at Matteawan.

During the afternoon and night, heavy rains undermined the embankment on the east side of the tracks, and shortly before the arrival of train No. 37, tons of earth and rock slid out on the rails, covering the north-bound track.

The express train was going swiftly when the engine plunged into the mass of earth and stone. The locomotive turned turtle and rolled over into the river. The heavy trucks of the baggage car and first coach sank into the pile of earth, and brought the remainder of the train to a sudden stop.

The passengers were thrown violently about the cars. Four of the day coaches were wrecked.

GREYS KILLED BY TURKS.

SALONICA, July 29.—Three hundred Turkish troops attacked and dispersed a Greek band yesterday at Rakova, near Monastir. Five of the band were killed.

GRAND DUKES' FEAR.

(Continued from First Page.)

Volga steamer Kurjer have been arrested on suspicion of placing the steamer at the disposition of the band that held up a train on the Volga railway, last Thursday.

SEIZED FOR ARRESTS.

(BY THE ASSOCIATED PRESS-P.M.)

SAMARA, July 29.—A great demonstration occurred here following the news of the dissolution of the lower house of Parliament. Five hundred of the demonstrators were arrested. SEIZURE OF MANIFESTO.

(BY THE ASSOCIATED PRESS-P.M.)

KHARKOV, July 29.—The authorities have seized copies of the Viborg manifesto, issued by the outlawed Parliament, to the weight of 400 pounds, which had been shipped surreptitiously into Kharkov.

SEBASTOPOL COURT-MARTIAL.

(BY THE ASSOCIATED PRESS-P.M.)

SEBASTOPOL, July 29.—A naval court-martial today passed sentences upon the seamen who were arrested for complicity in the mutiny of the Black Sea fleet of November, 1905. Four men were condemned to death, one to life servitude, thirty-two to varying terms of penal servitude, and two to imprisonment. Six were acquitted.

A man named Samenkoff, who was charged with complicity in the attempt with a bomb upon the life of Gen. Neputsev, at Sebastopol, May 27, escaped from jail today. He was assisted by a volunteer, and disappeared.

WORST PERIOD OVER.

(BY THE ASSOCIATED PRESS-P.M.)

ROME, July 29.—The situation in Russia is being keenly followed here. From official information received here the opinion prevails that the worst period of the crisis is almost over.

Premier Stolypin is spoken of here by intimate friends as a model of honesty, loyalty and healthy liberalism, and as being imbued with energy and moral courage. The idea is circulated that he favors the reestablishment of complete autocracy.

RUSSIA AND COTTON.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, July 29.—(Exclusive Dispatch.) Southern cotton crop news on the whole has been undeniably good. While there has been some disposition to make allowances on the theory that the South is short, and therefore sends good crop news as a matter of self-interest, favorable advices have been altogether too numerous and too well-authenticated to be disregarded.

Russia is a very heavy consumer and prolonged struggle in that country would doubtless mean heavy reduction in the amount of goods used.

GOT TROOP KILLED.

(BY THE ASSOCIATED PRESS-P.M.)

ST. PETERSBURG, July 29.—A former member of the Associated Press at a late hour last night that Gen. Trepoft had been killed. It could not be confirmed, but probably is a revival of the false rumor current last week.

SUPPRESSING DETAILS.

(BY THE ASSOCIATED PRESS-P.M.)

ST. PETERSBURG, July 29.—News of the formidable revolt at Poltava, which was first predicted in manifestos, is being suppressed by the Russian public through the press tomorrow. Dispatches of the occurrences have been suppressed, and the only details are obtainable by the foreign press correspondents through the regular telegraphic channels. The revolution has been kept so secret that the Russian public is almost as promptly and fully informed as the government, declare the trouble to be far from over. An official report is being issued to the effect that machine-gun detachments and Cossacks are being used to suppress the mutinous battalion.

The situation at Shusha is exceedingly strained. It is said that an armed force will be used to disperse any gatherings on the streets without preliminary warning.

WORKMEN'S COUNCIL.

(BY THE ASSOCIATED PRESS-P.M.)

A plenary meeting of the St. Petersburg council of workmen's deputies, representing 130,000 workmen, was held today at Terikoff, a little town beyond the Finnish border, where the government has been unable to reach the Mecca of all opponents of the government. The members agreed that a general strike, though it must be declared at a later date, would be of little use. The afternoon was spent in discussing other measures, and an expression of views as to the attitude to be taken by the workmen on the dissolution of Parliament. Many of the delegates favored a gigantic strike, but no decision on this point was reached.

JUBILATING OVER SAMENKOFF.

(BY THE ASSOCIATED PRESS-P.M.)

There is more jubilation among the revolutionists over the escape of the Prisoner Samenkoff at Sebastopol, who is believed to have been an accomplice in the attempt last May on the life of Gen. Neputsev. This escape sets at liberty one of the most dangerous revolutionary conspirators in Russia. Samenkoff is a leading member of the Central Committee of the royal revolutionists. His friends here are exceedingly malicious, and he had no connection with the plot against Gen. Neputsev, and say that the authorities used his presence in Sebastopol the day of the attempted assassination as a pretext to arrest and railroad him to the scaffold.

CEAR SENDS FOR MEYER.

(BY DIRECT WIRE TO THE TIMES.)

ST. PETERSBURG, July 29.—(Exclusive Dispatch.) United States Ambassador Meyer was summoned to Peterhof today to enlighten the Czar on how the news of his dissolving of the Douma had been received in America and what impression had produced there upon the government at Washington. The Czar gave the American Ambassador positive assurance that he certainly will establish constitutional instructions.

ALFONSO'S YACHT OVERTURNS.

(BY THE ASSOCIATED PRESS-P.M.)

SAN SEBASTIAN, July 29.—(Exclusive Dispatch.) At the Santander sailing regatta, King Alfonso sailed his own boat, the Queen. His other boat, the Maria, capsized. The men aboard were rescued.

MAKE IT HARD TO REBUILD.

Sixteen Hundred Pavers and Laborers Strike Today.

Will Tie Up the United Railways' Improvements.

Union Demands Recognition and Advance in Pay.

(BY DIRECT WIRE TO THE TIMES.)

SAN FRANCISCO, July 29.—(Exclusive Dispatch.) Sixteen hundred unskilled laborers and pavers employed in reconstruction work by the United Railroads will go on a strike tomorrow, and tie up practically all the work of rehabilitating the street railroads of San Francisco.

The strike is the result of the efforts of labor-union organizers to form a union of these ignorant, unskilled laborers, a large part of whom are Greeks and Italians, who cannot speak English and whose living expenses are less than half a dollar a day.

About 1000 of these men belong to a union formed during the last two weeks. The United Railroads discharged about 180 who were annoying their men. Then the union demanded the reinstatement of these men, which was refused. So they demanded not only restoration of their jobs, but the whole force, and the unionizing of the whole force, and the unionizing of the whole force, and the unionizing of the whole force.

The demand \$2.50 for unskilled labor and \$3.50 for pavers for eight hours. The unskilled laborers have been getting from \$1.50 to \$2 and the pavers \$2.50 for ten hours. The United Railroads will refuse any terms. Stoppage of work on the railroads will be a great hardship to the people, as every new line opened means quick communication for thousands. This is in line with the action of other unions, which are making it very costly for rebuilding.

NO PAPER MILL STRIKE.

(BY THE ASSOCIATED PRESS-P.M.)

SCHENECTADY (N. Y.) July 29.—The threatened strike of the United Brotherhood of Papermakers members has been averted. The United Paper Company, whose two mills are running day and night, will inaugurate a system of three shifts in the twenty-four hours instead of two, as in operation at present. The employees are to receive practically the same pay per day as under the two-shift plan. About 15,000 employees are affected.

"OLD STONES" ON BONES.

(BY THE ASSOCIATED PRESS-P.M.)

"Marcellus," the Anonymous, Bothering the Pope About the Remains of St. Peter. (BY DIRECT WIRE TO THE TIMES.) NEW YORK, July 29.—(Exclusive Dispatch.) Because an anonymous writer, who signs himself "Marcellus" of the Old Stones, has written an open letter to Pope Pius X., calling upon him, in the interest of historical fact and archeological research, to permit the opening of the tomb of St. Peter in St. Peter's Cathedral, Rome, for the purpose of settling the question of whether the tomb really contains the bones of the apostle, Catholic educational circles in this country and Europe have been aroused.

Articles by "Marcellus" of the Old Stones" have appeared in most of the European papers, and have created doubt among those believing anything in the tomb popularly supposed to contain the bones of the first apostle. His latest letter was a remarkable direct appeal to the Pope, and it was printed in all the European languages.

"Marcellus" hints that at some time the tomb was desecrated and the bones removed. Archeologists are deeply interested in the answer which the Pope may make.

IN MEMORY OF "STONEWALL."

(BY THE ASSOCIATED PRESS-P.M.)

ROANOKE (Va.) July 29.—A handsome memorial window of Gen. Thomas ("Stonewall") Jackson was unveiled in the Fifth Avenue Presbyterian Church (negro) today. The window was created by the pastor, Rev. L. L. Downing, the money for its purchase coming wholly from negroes.

The exercises were largely attended by both races. The Confederate camps of Roanoke and Salem, and the chapters of the Daughters of the Confederacy of the same place being well represented. Downing's father and mother were members of a Sunday-school class of negro slaves, and taught by Jackson at Lexington before the war, and today's exercises marked the realization of an ambition Downing has had since boyhood, to pay fitting tribute to the Confederate commander.

The picture presented in the window is that of an army camping on the banks of a stream, the inscription underneath being Jackson's last words: "Let us cross over the river and rest in the shade of the trees."

CHANCE SHELL DAMAGES SHIP.

(BY THE ASSOCIATED PRESS-P.M.)

BUDAPEST, July 29.—The Pest-Herald today publishes a report that while engaged in maneuvers near Lake Balaton, the Austrian battleship Hapsburg fired by mistake at the battleship Erzherzog-Karl, badly damaging the vessel and injuring several sailors. A seven centimeter shell was used.

SEIZE THREE CHURCHES.

(BY THE ASSOCIATED PRESS-P.M.)

Bulgarians Make Anti-Greek Demonstration and Fatal Riot Follows. (BY THE ASSOCIATED PRESS-P.M.) PHILIPPOPOLIS (Bulgaria) July 29.—An anti-Greek demonstration took place here today. The Bulgarian population of this place took possession by force of three of the Greek churches. Two persons, a Greek and a Macedonian, were killed, and several were wounded in the fighting. The streets are in the hands of a mob.

At a late hour tonight, troops fired blank cartridges at the rioters, but did not succeed in dispersing them.

JOHN D. ATTENDS CHURCH.

(BY THE ASSOCIATED PRESS-P.M.)

TARRYTOWN (N. Y.) July 29.—John D. Rockefeller, accompanied by his wife and son, Dr. Rockefeller, Jr., attended church here this morning, as is his custom when staying here. Mr. Rockefeller was warmly greeted by the members of the congregation, and told several of them he was glad to be home again, although he had a splendid time while in Europe. Mr. Rockefeller will leave for Cleveland tomorrow.

NO LONGER ACTIVE HEAD.

(BY DIRECT WIRE TO THE TIMES.)

CLEVELAND, July 29.—(Exclusive

PITH OF NEWS FROM THE MIDDLE WEST.

(BY DIRECT WIRE TO THE TIMES.)

CHICAGO, July 29.—(Exclusive Dispatch.) Chicago had a pleasant enough Sunday, so far as temperature was concerned, but there was a constant threat of rain, which tapered outting parties. The maximum temperature was 74 degrees, and minimum 66. Middle West temperatures: Alpena, 68; Bismarck, 80; Cairns, 78; Cheyenne, 72; Cincinnati, 78; Cleveland, 75; Davenport, 82; Denver, 82; Des Moines, 83; Detroit, 70; Devil's Lake, 80; Dodge City, 84; Duquesne, 80; Duluth, 75; Edmond, 80; Grand Rapids, 74; Green Bay, 78; Helena, 80; Huron, 80; Indianapolis, 74; Kansas City, 84; Marquette, 70; Memphis, 82; Milwaukee, 76; Minnesota, 70; North Platte, 80; Omaha, 78; Rapid City, 86; St. Louis, 80; St. Paul, 78; Sault Ste. Marie, 60; Springfield, Ill., 80; Springfield, Mo., 78; Wichita, 84.

GOT SALOON MAN'S GRAVE. Mistakenly given to Tom Courtney, a friendly pauper whose body was on route from the County Poor Farm at Danvers to the Hahnemann Medical College dissecting room, the grave which was destined for Christopher Haller, formerly a prosperous saloon-keeper. As the result of this mistake, which was made first by Tony Berghoff, janitor of the college, the family of "Chris" Haller, as he was popularly known, buried with all due rites the body of Tom Courtney.

DOUGLAS GOING TO COURT. John Alexander Douglas will not abide by the decision of Judge Landis in the appointment of a receiver for Zion City. He has directed that an appeal be made to the Supreme Court of the United States. This announcement was made at a meeting at the

EXCELISOR SPRINGS, Mo., and also for a pleasure resort in Mississippi has been taken by his friends here to mean that he will abandon the French Lick resort, owing to the attitude which Gov. Hanley has assumed toward him and the methods practiced at West Baden and French Lick.

TAGGART'S NEW RESORTS.

(BY DIRECT WIRE TO THE TIMES.)

FISTS THUMP

MR. PREACHER.

H. E. Wright Punches Rev.

Ward in Pleas.

Mr. Ward Retaliates With a

Cane Slap—There!

And Then Mr. Wright Lan-

guishes in a Cell.

LOS DIRECT WIRE TO THE TIMES.

SAN JOSE, July 29.—[Exclusive Dis-

patch.] H. E. Wright of San Fran-

cisco, came down this morning for

the purpose of administering a fistic

rebuke of the husband of his wife's

sister, Rev. Mr. Ward, Bible reader, and

an eloquent and handsome Baptist

preacher.

Ward and Wright are married to

sisters, both stipendiaries of Judge

Sayle of this city. Ward wedded Miss

Gatha Cummings, the noted singer, a

year ago. She was handsome and so

was he. It was a great society event,

and the Bayles and the Cummings and

the Wards were proud of it.

They went East, and he preached,

while she sang. Then they quarreled

and she returned home. A divorce

suit was brought.

Troubles have been brewing ever

since, and recriminations were ex-

changed by the two sides. Saturday

Mr. Wright, who formerly was a tea

merchant and once a bank clerk here,

was informed by his wife that the Rev.

Mr. Ward claimed their younger

daughter, Margaret, was the daugh-

ter of Ward's wife, whereupon Wright

came here and caught the preacher

and thumped him soundly in the solar

plexus.

In return the clergyman hit Wright

a whack over the head with his cane,

and then had Wright arrested.

The sequel will follow in the courts.

SETTLE SPAT

WITH BULLET.

ROBERT CARTER SHOTS A. G.

MOSEY IN TULARE.

LOS ANGELES, July 29.—[Exclusive Dis-

patch.] A. G. Mosey was shot this

afternoon while standing in the

door of a store in this city by Robert

Carter, and probably fatally

wounded. The trouble between the two

men dated back several months to a

time when Carter was night watchman

and Mosey was a salaried

officer.

Today Mosey saw Carter standing in

the doorway, and remarked: "We

might as well settle that difference

now."

Within a few moments a shot was

and Mosey fell. The ball entered

between the fifth and sixth ribs, and

passed into the abdominal cavity. Car-

ter, who is a man of family and well

known, is now in the city.

MILWAUKEE'S RUN ENDS.

CRUISER IN NORTHERN PORT.

LOS ANGELES, July 29.—[Exclusive Dis-

patch.] The United States cruiser Mil-

waukee returned today from Santa Bar-

bara, where she underwent a successful

trial. Accompanying the Mil-

waukee was the cruiser Boston and the

destroyer Paul Jones.

SALMON PACK IS GOOD.

ALASKA SAME AS LAST YEAR.

LOS ANGELES, July 29.—[Exclusive Dis-

patch.] Capt. David H. Jarvis, general

manager of the Northwestern Fish-

ery Company, who has just completed

a tour of the Alaska fisheries, said

today that this season's Alaska sal-

mon pack will be approximately 1,500,

or about the same total as last

year.

Dyspepsia
I. Grant: I am one of those
fortunate beings who for years
had stomach troubles, and was
at a loss to know what to eat
would agree with me. About
months ago I stumbled on
Hygienic Crackers, and in them
I found a perfect diet in my case. I
been eating them ever since and
feel very much better. I wonder
if you and eat something that I
did not and have to suffer for it.
I get back on the Hygienic
cracker diet immediately and am
all over. I gladly tell others
wonderful Crackers.

ENGINEERS TOURING ROUTE OF CONDUIT.

Mulholland and Lippincott in Vicin-
ity of Red Rock—Thorough Exam-
inations Made—Feasibility of the
Project—Chaffee to be Chafed.

UP ALONG the line of the pro-
posed Owens River conduit, en-
gineers are making detailed sur-
veys, setting location stakes, draw-
ing maps and profiles, and gathering
massive data from which the cost of
construction may be computed accu-
rately. Chief Engineer Mulholland and
his associate, J. B. Lippincott, are in-
specting the work of the men in the
field.

Mulholland and Lippincott left Los
Angeles last Tuesday in a steam motor
car, to go over the whole line from
the Sierra Madre to the intake in
Owens Valley. They spent the night
at Acton, where the line comes into the
Sierra Madre, and on Wednesday went
about with the field party into the
Sierra Madre, making a minute examina-
tion of the route to the point where
the tunnel will pierce the range.

Mr. Lippincott is familiar with con-
ditions at the upper end of the sys-
tem in Owens Valley, but this is his
first examination of the conduit line
south of the valley, and he is making

Where conduit will cross Jolod
canyon and pierce Sierra Madre

During riverbed to be
dredged, water comes down to Los Angeles

The study of the engineering prob-
lem presented. For the greater part
of the distance from the intake to
the Sierra Madre, the conduit can be
laid in the open, following a grade
about 100 feet above the river, and
no difficult work is in-
volved either in location or construc-
tion.

The rough country is from the head
of the Red Rock Canyon to the Mojave
Desert, and from the exit of a tun-
nel through Acton summit to the be-
ginning of the Sierra Madre series of
hills.

Selection of the safest and most
economical routes through the hills,
and determination of the best methods
of construction, are the problems to
which Mr. Lippincott is giving particu-
lar attention.

When the engineers returned to Ac-
ton from their walk over the line of
survey, Mr. Lippincott said that the
location and the methods of construc-
tion proposed by Mr. Mulholland com-
mended themselves to his judgment
and he believed they offered no diffi-
culty. He said that the work would
be undertaken by the city of Los An-
geles, and that he had gone to consider
Mr. Mulholland's estimates of cost quite
liberal enough, and applying his experi-
ence in government work of similar
character—he felt certain that much
the work could be done for less
than the rate named by Mr. Mulhol-
land.

DRY LAND FARMING.
Immense Areas of the Northwest Are
Now Being Cultivated Under
That Method.

Within recent years, says Country
Life in America, the possibilities of
dry land farming have begun to be
realized, not only by the Department
of Agriculture, but by the various ex-
periment stations in the arid States.
The old rain belt was formerly con-
sidered as limited to the area in which
the average rainfall was about twenty
inches per year. Dry land farm-
ing, however, is now being success-
fully practiced in many localities
where the rainfall ranges from eight
to fifteen inches per year.

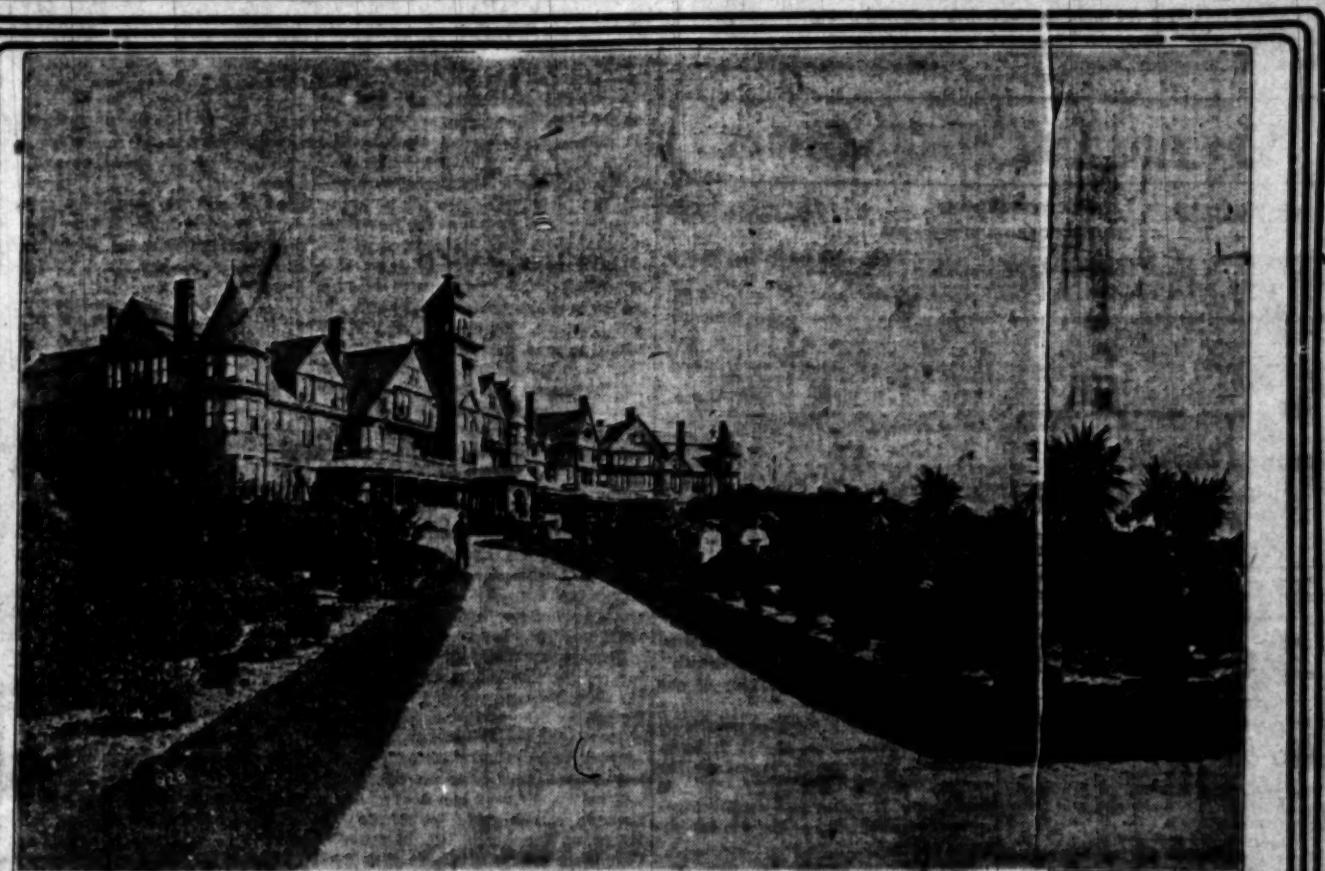

In parts of Montana, spring wheat
and alfalfa yield large and profitable
crops, without irrigation, and with a
rainfall of twelve inches. Similarly in
Utah dry land farming has yielded
excellent results with wheat, barley
and to a somewhat less extent alfalfa.
In the interior of Oregon there are im-
mense areas planted to wheat and
yielding twenty to twenty-five bushels
per acre with a rainfall not exceeding
eight inches per year.

The results obtained by the thou-
sands of farmers who are engaged in
this line of agriculture have called at-
tention to the great possibilities of dry
land farming and have made it appar-
ent that there are thousands of acres
of land containing almost unlimited
plant food which will yield good crops
under a system of dry land farming
and which have heretofore been con-
sidered irremediable.

CIGARS UNITED

At the Sign of the UNITED
Shield "no misrepresen-
tation" is an iron clad rule.

Watch our window pos-
ters—they tell a little
story every day of the week.

MERE cheapness pries quality and price apart with a crowbar—
value binds them together like a diamond set in a hoop of gold,
making one complement the other.

We don't bother much with cheap cigars, just because they are
cheap, but we do sell all the good ones at the smallest margin of
profit. This is a reversal of the old, played-out method of cigar retail-
ing, but it's winning. Our stores everywhere from Coast to Coast
tell the story.

The GEN. BRADDOCK CIGAR

(REINA VICTORIA EXTRA)

6 for 25 cents. \$1.00 per Box of Twenty-five.

Filled with thoroughly seasoned, well-blended, clean, long leaf—rolled by
hand and wrapped with best Sumatra—burns evenly and makes a smooth,
mild smoke. The kind of cigar that usually sells three for 25 cents.

Pen Points

The question of "the right of way" is too often settled with Death as the umpire.

The reformers in politics are never so enthusiastic as when there is nothing to reform.

If we understand Mr. Bryan's present attitude, he has now become a radical conservative.

It seems that it is not so much a case of being able to "stand pat" in Iowa as it is to stand Communism.

It used to be that the political situations were occupied by big men. Now they are simply occupied by a big noise.

If there was to be a national ticket with John Mitchell on it, why not the consistent and name Eugene Debs for first place?

There is politics all over the country just now, but you may have noticed that it is still a little more so in Iowa than elsewhere.

The public has a short memory, but it seems that somebody should remember long enough to put the deadly grade crossing out of business.

Pers and Chas have fought each other so often that it seems they would be tired of it by this time. If they are not the world certainly is.

This is as good a year as any, perhaps, to take the heat in Los Angeles politics by the scruff of the neck and throw them in the pickling tanks.

It is a mistake to say that "Black" Hayes of San Jose, who is a candidate for the Republican nomination for Governor, is an editor. He merely owns a newspaper.

The greatest possible proof that revolution in South America does not amount to much is the fact that Richard Harding Davis pays no attention to them any more.

It is an easy thing—although it is somewhat expensive—to arrange matters so that collisions between motor cars and locomotives would be an impossibility. Then why is it not done?

A review of world politics makes at least one thing clear, which is that Plus X made no mistake when he appointed the young Spanish cardinal, Merry del Val, his secretary of state.

Are we civilized people or are we not? asks Maxim Gorky in his latest pronouncement. Well, we are to a certain extent, but some of us are not willing to go quite as far as Gorky goes.

It is now suspected that Mr. Hearst's "Independence League" consists of himself, "the most powerful man in the country" and that fellow who forged the nomination papers when Hearst ran for Mayor of New York.

Mr. Bryan's welcome in Ireland is not surprising. He is himself Irish "on both his father's and his mother's side." But he might be a little stronger on the "old sod" if he still retained the original "O" to his name.

Have you ever noticed that there is never a collision between a steam railway train and a trolley car where there is no grade crossing to bring them in contact with each other? Well, that's the meat in the present commotion.

As a rule, it doesn't really make much difference who is the Vice-President of the United States, but when it is proposed to put a man of John Mitchell's caliber there, the people will be apt to regard the place as too important to be made a joke of.

One reason why the people do not dread Mr. Bryan now as much as they did when he made his first appearance in the arena, is that there is no longer any doubt as to what disposition will be made of him whenever his name is found on the ticket.

The way it is beginning to look now, the other candidates for the Republican Presidential nomination may as well learn to recite the "Charge of the Light Brigade." It is certainly a case of "Cannon to the right of them, Cannon to the left of them, Cannon behind them," etc.

"The Machine" is not taking any active part in electing members of the Legislature this year. We can prove it by W. Joseph Ford, the bright, young, independent lawyer who was a candidate in the Seventy-fifth Assembly District until he suddenly found out that he wasn't.

Bishop Spalding sounds a true note when he says that if the people demand Col. Roosevelt in the White House for another four years, it will be his duty to obey. Which leads us to think that, possibly, all these other Presidential "nominees" are not exactly as necessary as they might be.

Kansas is short on school teachers, and the wonder is that the whole country is not in the same predicament. A young woman teaches in the schools only until some one she likes makes her an offer of marriage, and a male teacher isn't paid enough money for his work to encourage him to remain at

THE NEWEST TICKET.

"Bryan and Mitchell." How would that sound for a "Democratic" Presidential ticket in the year of our Lord, 1908?

We are told that the idea originated in the Hoosier State, to-wit, Indiana. Comment need not be passed on the subject of its originality or its brilliancy. It would be a good thing—a most excellent thing—for the Republican party.

The Indiana Democrats who are nursing this double-barreled bomb are hoping to get the socialist vote of the labor unions by placing John Mitchell on the tail end of the Democratic donkey. It is assumed (as it seems to us without warrant) that the D. C. will passively submit to the imposition without kicking. Just now this venerable and much-bedecked man seems disposed to attempt the seemingly impossible feat of carrying Bryan through a third campaign. But John Mitchell! Will he not be the last straw to break the back of the spavined and battered old donkey? The latter has borne many burdens in his time. He has survived all manner of vicissitudes, but who can vouch for his ability or his inclination to stand for this proposed addition to his already heavy burden?

As there is a limit to human endurance, so there is a limit to the endurance of the Democratic Jack. For in these many years he has had piled upon him all the sins of which his sponsors have been guilty, and indeed they have been many and grievous. Possibly he can stand up under Bryan, but the socialist-anarchist crew represented by John Mitchell will surely prove too much.

From the Republican point of view, nothing could be more satisfactory than the nomination of John Mitchell for Vice-President on the Democratic ticket. The purpose in his nomination would be to bring out the full strength of the union labor vote. This is desirable. So much has been said concerning the voting power of this small faction among American voters, that there is a general desire to see what it can do. There are the best of reasons for believing that the labor bosses are putting up a large-sized bluff in this matter, and honest voters would like to see a "show-down." There is, or should be, no well-defined question of politics in unionism. Although the Democratic party has had a good deal to say about its friendship for the wage-earner, it has never done anything for him, worth mentioning, while the Republican party has immeasurably benefited labor, both organized and unorganized. The condition of the wage-earner today, as compared to his condition under the last Democratic administration, from 1892 to 1896, needs only to be recalled in order to show which of the great parties has been and is the true friend of the wage-earner.

If the Democratic leaders are really willing to place a labor boss on the ticket as Bryan's running mate, they would probably do better to select Sam Gompers for the sacrifice than John Mitchell. There can be no doubt that Gompers would receive a larger percentage of the so-called "labor vote" than would Mitchell. However, either would serve to test the strength of the union vote. When these fellows are compelled to show their hands, everybody will marvel that they could ever have been regarded as an important factor in politics.

VALUABLE FIRE DATA.

Immediately following the San Francisco fire, while matters in that city were under the immediate control of the War Department, Capt. Sewell made a very careful inspection, with the aid of others, into the effect upon buildings, both by the earthquake and by the fire. The War Department will at an early day publish an elaborate report embodying the observations made by Capt. Sewell and his aids.

This report will show that there were forty-five "so-called fireproof buildings" in the city. There were a small number of what are known as "slow-burning" buildings, which the report will say were "modeled more or less loosely along the lines of the New England mill building." But these mill buildings were not of the standard type, according to the standard of the National Board of Fire Underwriters. The observations by the military authorities will show, as all who have seen the city since the fire know, that all frame buildings and practically all those with timber floors, were totally destroyed, with all their contents. It will show that the so-called fireproof buildings were pretty thoroughly eaten out. It is assumed, although that can hardly be proven, that the average loss on the best class of buildings in San Francisco will be much more than on those in Baltimore when that city was

burned. These fireproof buildings were erected according to the building laws of San Francisco. These laws provided that in class A buildings, termed fireproof or of skeleton construction, the framework should be of steel beams and girders riveted at the joints, the building to be constructed of non-inflammable material throughout, the interior to be of metal work, excepting the framing for elevators and staircases, and protected from fire by brick or terra cotta at least one-and-a-half inches thick, with plastering three-quarters of an inch thick applied to all metal lathing. Wood might be used only for window and door frames, sashes, standing finish for the upper and under floors and their necessary sleepers, and for isolated furring blocks. In such buildings the use of laths or furrings of wood was not permitted.

The law provided for class B buildings, all exterior walls and piers of masonry or of masonry and steel, exterior surface other than masonry to be covered with non-inflammable materials, partitions to be metal lath, floor and ceiling joists, posts and roof boards of wood.

Perhaps the point of most general interest in this report to be made by the War Department will be that referring to the earthquake damage. It appears that the authorities made very careful observations throughout the city immediately after the earthquake and before the fires had broken out to such an extent as to obliterate the traces of the quake. It is conceded that there are no available data for a thoroughly accurate estimate as to how general the damage was, but in a broad way it will claim that 10 per cent of the total loss to buildings in the city was by earthquake. One of the observations establishes the fact that the earthquake loss was very irregular as to locality. At some points a whole group of buildings was almost entirely destroyed, while the buildings almost in contact with these on all sides escaped with scarcely a bit of harm. Very often the better constructed buildings were badly wrecked, while those in the worst condition in many instances escaped with scarcely any injury whatever. The shocks seem to have been very irregular, affecting certain spots much more than others in the immediate vicinity.

Another interesting section of this report will show that the dynamiting of steel frame buildings was utterly futile. The dynamite knocked off only bits of the cement from columns, or some of the floor construction. The experience of the authorities, it is claimed, will establish incontrovertibly the fact that a fire in a large city cannot be stopped by dynamiting steel frame structures.

As to resistance to fire, the only buildings presenting anything of particular interest are the public buildings and commercial buildings called fireproof. The mint and the customs house resisted the fire entirely. It did a little damage to the postoffice. For the first time the San Francisco fire shows the collapse of protected steel frames because of the destruction of the fireproof covering. It is claimed that this happened in several of the so-called fireproof buildings. The four-inch brick protection was the only practical covering that defied the fire. Terra cotta, metal lathing and plaster covering proved absolutely inadequate. Columns with cinder concrete resisted the fire perfectly. There were not many columns protected by this material. A four-inch covering of cinder concrete, even though subjected to the extreme heat, perfectly protected the columns. Many interior partitions were built of hollow tiles or light metal stock, covered with metal lathing and plaster. These were practically a total loss. The report will establish the fact that the burning of the contents of a single office room would develop enough heat to get through the surrounding partitions.

Another fact of great interest that will be brought out is that office vaults built of brick sufficed to resist ably the attacks of the Berceat fire. Other vaults proved utterly inadequate. It is said that nearly three-fourths of the safes in San Francisco failed to protect their contents.

TARIFF PROTECTION—A CLINCHER.

In one of the statements recently issued by the Department of Commerce and Labor, the total foreign commerce of the United States for the fiscal year ended June 30 is given as \$2,790,800,000. It is added that if the trade with Porto Rico and Hawaii, which was included in our foreign commerce prior to their annexation, were added, the total would materially exceed \$3,000,000,000. Our foreign commerce for the year just ended made a new record, both imports and exports exceeding the total of any preceding year.

In the face of these figures, it will be rather difficult to persuade the American people that there is great and imperative necessity for revising the tariff. The theories of tariff revisionists and free traders have been so often and so completely refuted by the logic of accomplished results, that further demonstrations seem hardly to be necessary. Under the system of tariff protection (which, as its opponents view the matter, "chokes industry," "shuts in exports and shuts out imports," our foreign commerce has grown more rapidly and more substantially than the commerce of any other nation on earth. During the same time, the development of our domestic industries and our internal or interstate commerce has become the marvel of the world. No industrial development so magnificent was ever before known since the dawn of civilization.

To abandon the political and fiscal policies under which these splendid results have been achieved would be

the ultimate of folly. It is quite true that some wrongs and some abuses have grown up under the prevailing system, as they are sure to develop under any system. But the Republican party has shown itself capable of righting the wrongs, to a large extent, and of correcting the abuses. It possesses and it deserves to possess, the confidence of the people. When all in well, and steadily improving, why seek to make a change, which is more likely to be for the worse than for the better?

COMMITTEEN SPEAK OUT.

Two of the members of the Seventh District Republican Congress Committee have had the candor to repudiate the map played by Secretary Luther Brown without their full knowledge and consent. Messrs. Cochran and Beckett declare they did not fully appreciate the terms of the call until after the mischief was done, and are now squarely in favor of setting a later date for the country primaries. In the interest of fair play, there is no doubt that other members of the committee were victimized by their secretary and will swing into line for recognizing the justice of the protest made by the Mathews campaign committee. Fair play is all that the friends of Mr. Mathews ask, and it is the opinion of The Times that there are few members of the committee who would not put themselves on record for fairness if they were to vote tomorrow on the framing of a call. The best thing they can do now is to manfully acknowledge that they were either misled or misrepresented by the trickster, Brown.

Nine of the hospitals of San Francisco were destroyed in the great disaster, and those remaining were so badly crippled as to diminish their value seriously, and at least one of them will have to be torn down. The medical faculty of the University of California is making an effort to start a hospital and free clinic in one of the Affiliated College buildings south of the park in San Francisco. It is pointed out, in furtherance of this movement, that a university hospital will be a benefit to the entire State, as there are medical problems of peculiar interest to this Coast, which should receive attention at once, and this can be accomplished only through the cooperation of the State and the proposed University Hospital would be of State benefit, why should not Los Angeles and Southern California assist in raising a part of the funds required to reconstruct and furnish the building. Friends of medical education, of the University, and of sorely smitten San Francisco, will undoubtedly be glad to aid this worthy enterprise after the subject has been brought to their attention. The amount required for reconstruction and equipment is about \$500,000. The cost of maintenance is practically been guaranteed in San Francisco. Any contributions sent to Dr. A. A. D'Amico, dean of the medical faculty, Affiliated College building, San Francisco, will be gratefully appreciated and duly acknowledged.

ARMY AND NAVY MEN.

Capt. Louis M. Gulick of the U. S. Marine Corps, who has been on duty in Washington, D. C., will sail from San Francisco for the Philippines, to Peking, China, where he has been assigned to duty with the legation guard.

Mr. Clement A. F. Flagler, C. E., U. S. A., Civil Engineer, Frank F. Chambers, U. S. N., and Hon. Felix Agnus of Baltimore have been designated as the recent session of Congress to inquire into the advisability of the government purchasing the Delaware and Chesapeake Bay bridges.

Assistant Secretary of War Robert Shaw Oliver is now acting Secretary of the Navy. He is a native of Vermont, and a graduate of the United States Military Academy. He has served on the western frontier in the Philippines, and in the capture of Santiago de Cuba, and the battle of Manila.

Senator Vest's Coffin.

Champ Clark relates many instances of the grim humor that was so prominent a feature of the late Senator Vest of Missouri. He tells how, during one of Vest's campaign tours in the early '90s, he was one night in the town of St. Charles. The hostess of the place, a poor widow, was at breakfast Vest was especially put out by the fact that she placed before him for coffee.

After having sampled the beverage, Vest said to a friend who was sitting by: "When that individual had a cup of coffee, he was a good man. He was a good man, and you will find him smiling innocently before him."

"What is this stuff?" "Coffee," meekly replied the proprietor, somewhat taken aback. "Coffee!" repeated Vest, in a scornful tone. "My friend, I could insert a coffee bean in my nostril, give it the Missouri River, swim to the town of Alto, Ill., and I'll guarantee that one could ball up the entire route!" (Chicago Inter-Ocean.)

The Kaiser's New Fad.

Kaiser Wilhelm has a new fad, says the London Standard. It is collecting picture post-cards, and he has thrown himself into it with characteristic energy. Every country in the world in which Germany possesses official representatives of any kind whatever is laid under contribution. The Kaiser causes his secretary to write a picture post-card to the official selected, and this is inclosed in a state envelope, or indorsement of State. This is then sent by mail, and on reaching its destination, often in the middle of the night, the addressee is at once roused from slumber to receive the document, which merely conveys the imperial greeting and commands a reply by the addressee, representing some local subject, "by return."

SERMON IN SONG.

"Thy way is in the sea, and thy path in the great waters, and thy foot-steps are not known."—Psalm LXXVII, 19.

The sea knows all the truth of time;

The sea sings ever that it knows,

Now in a lulling, lazy rhyme,

Now hurling it in billow-blows.

The sea bears thoughts too great for speech,

For it has known creation's gleams

And it holds memories that reach

The heart of the eternal dreams.

It caught the glow, the first star sung

Across the wonder of the night,

And as the star in glory swung

The sea sung back the living light;

It heard the songs of primal suns

As they raced gladly to the dawn,

And through its chant today there runs

The chord creation rears upon.

The deserts break in bloom for man,

The barrens yield their treasure-board,

But neither pleading, plot, nor plan

May find the strength the sea has stored;

Man has his way and works his will

And holds dominion in all lands—

The changeless sea is changeless still

And laughs at his impotent hands.

The sea, unmastered, dreams and wakes;

It sways with impulse half-world wide

When from the depths of space there breaks

The mystic call that lifts the tide.

It whispers with the wind, it sighs

Its secrets in the ebb and flow—

It brooded with the bending skies

A thousand thousand years ago.

Unchanging in its great unrest—

The heart throbs of eternity—

It keeps the gates of east and west

And murmurs of all time, the sea.

We may not interpret its song

Of crashing chords or lulling rhyme,

Nor even know how long, how long

The sea has held the truth of time.

HUMOR OF THE WORLD.

FROM ITALY.

"Oh, Holy Virgin, Girolamo, here is another train coming towards us on the same track. We are lost!"

"Malediction! And you insisted on having return tickets!"—[Il Bircichino.]

A traveler who had stopped for the night in a very rural hotel, shouted angrily to the waiter: "What are you doing? You have already awakened me twice under the pretense that breakfast is ready, and now you are trying to take away the sheets. Are you crazy?"

"Well," replied the domestic, "if you do not wish to get up, just stay where you are. What are you doing? You have already awakened me twice under the pretense that breakfast is ready, and now you are trying to take away the sheets. Are you crazy?"

"Excuse me, sir, could you indicate the best way to go to the prison?"

"Certainly; enter a shop, steal something and run away. In five minutes you will find yourself at the prison."—[Il Bircichino.]

"Papa, last night I dreamt that for the first time you gave me a bicycle, and mamma a watch."

"Yes, dear, but you know that dreams always go by contraries."

"All right, then, you give me the watch and mamma the bicycle."—[Il Mottor per Ridere.]

"In four days this is the ninth time you have come begging. Do you think me a millionaire?"

"No, Signora, I merely wanted to see how far your money would go, as you have not given me a cent."—[Il Bircichino.]

Two intoxicated friends were discussing whether the next day would be Monday or Tuesday. At last the dispute became very animated, so, seeing a stranger coming out the railway station, they advanced to him saying: "Excuse me, sir, what day will it be tomorrow?"

"I cannot tell you; I am a stranger in these parts."—[La Chiacchiera.]

Signor Rossetti, a kleptomaniac in profession or nature, one evening at a dinner party, took possession of the silver spoon and said laughingly to his neighbor: "Not a soul here suspects that I have one of the spoons in my shoe."

Five minutes later the neighbor suddenly raised the table by saying: "Do you wish to see some good sleight of hand? I take this spoon and put it in my pocket. Now look and you will find it in this gentleman's shoe."—[Il Riso.]

The scientist Karakoff was working on his study when a servant brought him in his tray saying that the house was on fire. "Go and tell your mistress," replied the great man, "I do not mix myself in the affairs of the house."

Blind Man: Excuse me, Signora, but you have given me two Greek copper coins. I have a good man, as the money has worked the miracle of making you see, you may keep them."

"I thank you, Signora, I hope the noise my children sometimes make does not disturb you."

"Oh, no, not at all. You know my husband has some insupportable relations, and the awful noise which your children make has the effect of making them leave almost as soon as they go."

"As Others See Us."

We, rating others honestly, are prone to wonder how they, in their littleness, can pride themselves on merits of their own.

And be so blind to those that we possess.

We see wherein they lack; we measure all.

The faults which they serenely think they have.

We weigh their worth and see how far they fall.

How the things on which they stake their pride.

We wonder why they do not stoop to share the things that we prize.

Due deference to us who loom so high.

They pass us, merely nodding as they go.

Or overlook us as they hurry by.

Perhaps when they consider you and me,

They, too, discover blemishes that mark.

Perhaps it is our present selves they see.

Not what we might be and suppose we are.

[S. E. Kiser, in The Reader.]

MEN AND THINGS OVER THE SEAS.

African Railway.

The great advance which has been made toward a realization of Cecil Rhodes's daring conception of the Cape to Cairo Railroad is impressively displayed by the recent announcement that the rail head had reached Bismarck, in British Central Africa.

The length of Africa from north to south is about 4,000 miles. The portion of the road now in actual operation is 2,016 miles long, but the distance remaining to be completed is even less than these figures seem to indicate, for railroad construction is going on southward from Egypt and within the line from South Africa to the Sudan it will make connections forming a continuous rail route across the continent. It is not many years since Africa was known as the dark continent. The locomotive in the heart of Africa would be regarded as the dream of a madman.

A Japanese "Trust."

The Tokio Asahi states that five cotton textile companies in the Kansai district, viz., Osaka Boshoku, Miya, Otsu, Kanai, Katsushika, Temma, Otsu, and Otsu, have formed a guild for the exportation of cotton goods to Manchuria. The guild is to be known as the Kansai Cotton Textile Guild.

The above-mentioned factories will manufacture cotton goods equal to the standard quality, and label them with the same trade-marks. They have agreed to sell their goods at a price of at least 12,000 baels (valued at \$1,000,000 or \$2,000,000) every year, and keep up the exportation even though they incur some loss in the bargain.

The Mitsui Company has decided to do its best to push on the sale, and the service will be rendered by the Mitsui Company.

The government to guarantee a maximum loan of 4,000,000 yen at the rate of interest of 4 per cent per annum, to be advanced on documentary drafts, payable in four months. The loan to be advanced in gold in Japan and repaid in silver at the place of payment of the drafts, according to exchange quotations on the date of payment. The government to be delivered under certain limitations, even before they are paid or when a security has been furnished, according to circumstances. The Chinese Eastern Railway to carry the exports free of charge or at least at a reduced rate. The marine freightage also to be reduced to one-half for one year hence.

ent-Advisement.

nts from Newchwang that the en-

ing work contemplated or dis-

ed in that consular district (at

ent Manchuria and Mongolia) in-

es railroad maintenance and im-

ment, and increased railroad

ness, both by the Chinese and

and, possibly, in Northern

schuria, by the Russians; wharf-

ing operations at the port of

chwang, and road building by

Japanese and Chinese. For the

ent the status of improvement

of this nature in Manchuria can-

be definitely stated except per-

sons as regards maintenance and im-

provement operations on the gran-

de line operated by China, Japan

Russia. Among the new mile-

aged is that designed to connect

ang, Mukden and Hsinmintsu.

Japanese military lines,

the Kalgan extension of the

ral railways of North China. Bris-

ing, assisted by natives. The

Chinese and Russians administer

respective properties in Southern

Northern Manchuria, including

sections of the Chinese Eastern

way operated by each.

esperanto among the sub-

department. The international

language, introduced to the world

Dr. Zamenhof, a doctor in Warsaw,

and, in 1887, Dr. Esperanto.

ational language by Dr. Es-

peranto, published in that year, lay

mant for some ten years. It is said

to be the most perfect of all

languages, and now read or

ite Esperanto; and there are some

two hundred and twenty ven-

for propagating it. About half

the roots in Esperanto are of Latin

origin, 25 per cent. of English, 25

per cent. of German. There is no

English, "w" or "y" in the lan-

guage; there are no silent let-

ters. It is always

available next to the last. At

present, Esperanto consists of about

100 roots and from 200 to 300

affixes. The affixes are used in

the thirty prefixes and suffixes, 500

words are enough. Its grammar

is learned in an hour by

anybody who knows one of the Latin

languages. There are no irregular

verbs. The affixes are "o," "a," "e,"

and "i." "o" is the masculine

affix. For example, "patro," father;

"matro," mother. Will Esperanto go

down? "Volapuk" or will it prosper?

Lincoln's Miracle.

A great deal of curiosity and com-

ment was aroused by the Lincoln

as it passed through the differ-

ent cities of the East, on its way from

New York to its final resting place in

Washington. Many curious anecdotes

are told of the trip, one of which was

related by a man who was in the Bel-

asco when the other day by Captain N. R.

Wright of Company A, 1st Kentucky

infantry, who was in charge of the

MUSIC AND THE STAGE.

Our theatrical season—as far as im-

portant visitors from the outside world

are concerned—will begin about Oc-

tober 1, according to present calcu-

lations.

The Syndicate has booked many ex-

cellent attractions for Los Angeles

during the coming year, and the contract

just closed being for the appearance

of Raymond Hitchcock, in Richard

Harding Davis's comedy, "The Gal-

lupus."

Henry W. Savage's English grand

opera company is booked for the

week of January 3. There is some

doubt about the reorganization of this

famous company, but at any rate we

shall see Savage's production of Puc-

cer's "Madame Butterfly," which will

be sent upon the road with three com-

plete casts of principals, large chorus

and orchestra and spectacular scenic

mounting.

Walter Adams, in "Peter Pan," is

also a recent acquisition to our list,

and more contracts are being signed

each week.

Will W. Walling, who closed his en-

gagement as leading man of the Be-

lasco Theater last night, will leave for

San Francisco with his family on the

1st of this afternoon. He is to become

leading man of the Central Theater's

new "tent house" in the city of recon-

struction.

Mrs. Walling, who is known profes-

sionally as Edna Bond, had a brief

but brilliant success here last winter

in the principal role of "The Little

Princess."

James Neil and his wife, Edith

Capman, are making preparations

for an eastern starting tour this fall.

Mr. Neil has purchased road rights

in Martin V. Maer's drama of early

California, "The Last Frontier," and

will himself play the principal part.

George Barham, who, during the

past year, has worked night and day

staging the stock productions of

the Belasco Theater, is about to start

on a well-earned vacation. Tomorrow

he will leave for Lake Tahoe, where

he will be fishing and fishing at Lake

Tahoe. He is far from being well,

but his physician pronounces his ail-

ment principally an urgent need of

rest.

No organist in Los Angeles has

longer plans for next year's artistic

work than Archibald W. Sessions, of

Christ Church.

During the year just closed, Mr.

Sessions's organ recitals have been

weekly features of unusual interest

in local church life.

He will commence them again in

October, featuring especially during

the autumn many magnificent Bach

compositions and the organ sympho-

nies of Widor.

Another important engagement has

been made for the Morocco-Frohman

production of "The Judge and the

King." It is that of pretty Louise

Dray, daughter of John Dray, who

will play Marion.

The Belasco management is contem-

plating a revival of "Mrs. Dane's De-

mise."

There are three players within call

who should give magnificent per-

formances in the principal roles.

One of these has played in the drama

ere before. The reference is to Mr.

Sherrin, whose superb, noble and ironic

comedy as the Vicer will be a lasting

memory in the minds of those who

have seen enough to see it.

Mr. Gardner, as "Mrs. Dane," gives

solid promise, and the sentiment

may be echoed to the fullest degree for

the judges of Richard Bostworth

if Mr. Oberle is well enough to take

the role, the production may be put

in the course of a month.

Oliver Morosco has signed three-

year contracts with both Mace Green-

and William Desmond. Another

contract, signed for the coming year

THE MARK OF GOOD CLOTHES

KNOW US FOR BEST VALUES

What sirens are you lis-

tening to?

Yacht, Tennis, Golf,

Motor, Canoe or plain

laze?

Here are light clothes in

which to play your light

part and make you feel

and look just right.

Separate trousers.

Separate coats.

Separate you from only

a little coin.

White Dotted Batiste 15c

We've just received a hundred pieces of 30-inch fine quality white batiste, dotted with black spots in three different sizes—small, medium and large. These dotted batistes are highly fashionable and extremely scarce, and the price is firm at 25c, on Monday and Tuesday we shall sell this lot at 15c a yard.

Linen finished batiste in white or colored grounds, printed with large and small figures and floral patterns, sold everywhere at 25c, today and tomorrow here, 12 1-2c a yard.

Best American percales in light grounds or dark, excellent for boys' blouses, shirtwaists and suits, dotted or figured, regularly 15c, special 12 1-2c a yard.

A fair assortment of lawns, organdies, dimities, batistes and other fancy goods, both white and colored, in remnant lengths, at HALF PRICE today and Tuesday.

Half for Dress Trimmings

Here's a chance to get the very choicest of French hand made trimmings, passementeries and appliques—black, white and colored, at half what they're worth, because they're left in short lengths only, but a wide diversity of patterns and prices to choose from.

Silks and Lining Satins Some Reduced

36-inch lining satin at \$1 a yard. Coulter's "Faultless," our own brand, guaranteed two seasons, all shades, also white, cream, ivory and black.

36-inch "Superba" lining satin, all silk, in a full assortment of shades, note the unusual width for an all silk satin.

36-in. Skinner's satin lining, guaranteed, of course, all shades \$1.50

23-inch Crepe de Chine, all silk, our regular dollar grade and the quality other stores sell at \$1.25, full color range, white, cream, ivory and black as well, on Monday and Tuesday, 75c a yard.

32-inch Rajah Pongees, \$1.25, all the new colors are here in this popular rough weave—with white, cream and natural.

White Habutai and Shanghai Pongee Silks at reductions.—

27-inch, 68c grade now 50c 36-inch, 75c grade now 60c

36-inch, \$1.25 grade now \$1.00 36-inch, Pongees of \$1.50 grade

27-inch, Pongees of \$1.75 grade now \$1.25 27-inch, Pongees of \$1.25 grade

22-in., Pongees of \$1 grade now 80c now \$1.00

GOOD CROWD
SEES CRICKET.INTERESTING GAME PLAYED AT
AGRICULTURAL PARK.

"Rubber" Contest Between Los Angeles and Santa Monica Teams Results in Victory for Latter—Poor "Machine" Work Responsible—We Score on First Three Batters.

BY STINSON JARVIS.

Cricket on Sunday was explained yesterday by the statement that this was strictly a Biblical game, as shown when "Paul" stood up before the eleven and was bold—the cricketers spelling the last word "bowled." Consequently the best of weather was expected and realized when the first eleven of Santa Monica met the Los Angeles team at Agricultural Park yesterday, and, although there were some seats vacant in the grand stand of the old race course, the attendance was a good one, considering that cricket is still in its infancy in California.

This match was especially interesting because it was the final one of the "rubber" series, the cricketers spelling the last word "bowled." Consequently the best of weather was expected and realized when the first eleven of Santa Monica met the Los Angeles team at Agricultural Park yesterday, and, although there were some seats vacant in the grand stand of the old race course, the attendance was a good one, considering that cricket is still in its infancy in California.

The children of Israel were once defeated by the fact that the enemy "rubber" was the last word "bowled." Consequently the best of weather was expected and realized when the first eleven of Santa Monica met the Los Angeles team at Agricultural Park yesterday, and, although there were some seats vacant in the grand stand of the old race course, the attendance was a good one, considering that cricket is still in its infancy in California.

But on the other side the innings of J. C. Brown was the next batter, and he was a good one, considering that cricket is still in its infancy in California. The next four batters, Spooner, Bingham, Eyer and Duncan, made little runs, and the game was a good one, considering that cricket is still in its infancy in California.

Montague got four, but played one of the best innings of the series. The next four batters, Spooner, Bingham, Eyer and Duncan, made little runs, and the game was a good one, considering that cricket is still in its infancy in California.

On the next ball Montague got his pitch, and the game was a good one, considering that cricket is still in its infancy in California. The next four batters, Spooner, Bingham, Eyer and Duncan, made little runs, and the game was a good one, considering that cricket is still in its infancy in California.

H. Justice went in and got a couple of runs, and the game was a good one, considering that cricket is still in its infancy in California. The next four batters, Spooner, Bingham, Eyer and Duncan, made little runs, and the game was a good one, considering that cricket is still in its infancy in California.

BIG TOURNEY BEGINS TODAY ON
OCEAN PARK COURTS.

Forty-four Real Live Ones Are to Line Up This Morning in Singles for Men and Prospects Are Excellent for Close Matches—Four Men Are Here from San Francisco.

The tennis players will turn out in force at Ocean Park this morning in the preliminary matches of the twenty-second annual championship event of the Southern California Lawn Tennis Association and everything points to a very successful tournament. One reason for this belief is that there are forty-five entries in the men's singles, which is the largest number received for years.

Four crack players are here from San Francisco and the bay section to measure their skill with the locals, and naturally the Los Angeles men will do their best to send the visitors back home without any honors other than those of having played in the same tourney with the champion of Southern California. These players are Gardner, Foley, Crawford and Adams of San Francisco, and in addition to these is Spaulding of Santa Barbara, whom Braly beat in the recent Channel City contest.

Owing to the large number of entries in the men's singles, it was decided to start these players at 9:30 o'clock and put back the preliminary round of the junior play until 11:30 o'clock. The men's singles will be held yesterday and the following day.

Gardner and Lawrence, John Holmes and Elliott, Conde Jones and Galusha, are the players who are expected to win. The winner of Alken-Cassell match, Varie and Noble, Bundy and Donnell, Gorman and Foley, Davis and Nebeker, are the players who are expected to win.

On the next ball Montague got his pitch, and the game was a good one, considering that cricket is still in its infancy in California. The next four batters, Spooner, Bingham, Eyer and Duncan, made little runs, and the game was a good one, considering that cricket is still in its infancy in California.

ONE MORE AT DEATH'S DOOR.

Victim of Wreck Now Lies in Grim Shadow.

Claim Agents Busy Among the Many Injured.

All but Kellogg Are Expected to Survive.

Another death will result from the collision between the Monrovia electric car and the Southern Pacific train at the Ontario Park crossing Saturday.

At a late hour last night it was learned that William Kellogg, a nephew of Judge W. M. York, who lies at the Ontario Park hospital, was not expected to live until morning.

Kellogg had been up and about during the day and appeared to be improving. Shortly after dinner he was taken with severe pain in his head, and a few hours later had a hemorrhage of the brain.

Dr. Edward T. Dillon was called at once and attempted to check the hemorrhage which came from the left side of the brain. At latest reports the man was growing steadily worse.

Others injured in the railway collision at Ontario Park and at the corner of Grand avenue and Pico, Saturday, almost without exception improved their condition yesterday. Dr. E. A. Bryant, head surgeon of the Pacific Electric Railway Company, and also of the Los Angeles Railway Company's medical department, stated to a Times reporter last night that his conviction is no other death will result from the list of the injured, except, possibly, Kellogg.

It was a relief for the officials of the claim department of the railroad, both for the doctors and for Coroner Trout. The coroner states that it will be impossible to hold inquests over the remains of Mrs. Flora Zobel, who was killed at Ontario Park, and over the body of A. A. Umans, killed in the Pico street crash, before tomorrow morning.

WANTS GOOD JURY.

"I intend to get the best possible jury of nine men that can be found, and take them to the scene of the accident where they will be in a position better to judge where the responsibility should rest in the Ontario collision," said Dr. Trout, "Owing to the fact that so many people were out of the city yesterday, we found considerable difficulty in finding any one not connected with the wreck to give evidence in the matter. Probably the jury will serve at both inquests, and we hope to hold them, one following the other, on Tuesday."

Among the doctors who looked after the needs of the injured yesterday were E. A. Bryant, Dr. T. Dillon, Dr. H. G. Catz, Dr. E. T. Dillon and Dr. F. Howard, and Dr. R. H. Hoag. These are all well known physicians and have spared no trouble to meet fully the exigencies of the cases.

Attorney Walter Haas has been engaged to represent the husband of Mrs. Flora Zobel. Mr. Zobel is an invalid and is confined to his bed at Sierra Madre. He is very feeble and was not told of the death of his wife until his anxiety over her non-appearance demanded that he should know the truth. The shock was a hard one.

Also confined at Sierra Madre is an invalid son, A. Meyer, of this city, a son-in-law of Zobel is attending to all funeral arrangements, but will be unable to have the body moved from Pierce Brothers' undertaking establishment, for burial, until after the inquest.

Injuries were received by Rev. and Mrs. E. J. Crist, of Pomona, who are visiting at the residence of their son, R. H. Crist, of No. 1107 West Thirty-first street. The Crists are well along in years and are well known in the community. It will be months before their complete recovery. Rev. Crist sustained a double fracture of the collar bone, has a deep gash in his head, and is badly bruised about both legs. His wife had three ribs broken and is generally bruised about the body and has a slight fracture of an arm. They rested fairly well yesterday.

OTHER VICTIMS.

Walter J. Wallace, solicitor of the Edison Electric Company, was taken to his home in Alhambra. He is reported to be improving but is not fully conscious yet. A deep gash in his head and a concussion of the brain makes his condition very serious. His sister, Mrs. S. M. Kennedy, is doing nicely, but her condition indicates that it will be several months before she will be well.

R. R. Kehlau of Alhambra was lucky enough to jump off the car, escaping uninjured. He will be an important witness at the inquest.

Mrs. J. W. Harper of Sierra Madre Villa is unable to move in bed, so severe are the contusions to her back. Her son, Lyman, also is badly bruised, but her little daughter, May, escaped with just a few black and blue spots. Mrs. Harper was in the middle of the car and received the full force of the impact. She has not yet felt like talking of the accident, but claims that she watched the conductor when he jumped off at the crossing and saw him signal the motorcar to go ahead.

S. C. Politz, a well-known street car wreck at Pico and Grand avenues Saturday night, reported to the detectives that he lost or had had stolen, a pocketbook containing \$250 and a railway ticket. In the excitement following the accident, Politz says that he did not miss the pocketbook, but when he returned to his home at No. 1107 E. Molino street, he found it gone.

LETTERS TO THE TIMES.

The Times freely publishes the views of correspondents without holding them responsible for the opinions. The brief, terse, plain, average, is sufficient for the expression of an idea, or the presentation of a fact. Written letters are liable to be declined merely on account of their length.

"The Blood of the Gods."

A reader of "The Times" sends the following critique: "In a blood-red cover a little book, recently issued by the Times-Mirror Company, has struck its readers forcibly."

The work is entitled "The Blood of the Gods" and was brought out first in serial form through the Sunday Times. Like the writer of "The Purple" Upton Sinclair, its author, D. P. Hatch, goes after bottom facts. In regard to the alcohol question he is scrupulously accurate, and in his denunciation of the very book seems to grapple and shout from cover to cover. He tells how it feels to be drunk and how it feels to be sober. He shows what money the nations are expending that may reduce his blood to the condition and color of mud; also how the different drinks seduce in their various ways

the devotee of Bacchus, the "Imp of the Bottle" assuming innumerable shapes as occasion demands—some appearing as a sick Adonis and others as a raging maniac.

The work is forceful because the logic of fact is its base. How a man can go on drinking alcohol, in either small or large doses, after reading these pages, is beyond comprehension. So many productions on temperance are mauls and sentimental, that this little red-dressed effort seems like a fighter on the ramp, when paralleled with them. It is virile and logical from first to last. It is terrible, too, in its truthfully exposed of things as they are. We congratulate The Times on bringing this book to the fore.

A TIMES READER.

FIRE DID NOT STICK TO GLUE.

SPECTACULAR BLAZE DESTROYS FACTORY AND GOODS.

Flames Believed to Have Started from a Pot of Boiled-Soup Sticking in the Furniture Shop—Damage is Considerable and Half a Ton of Tobacco Gets Well Soaked.

A spectacular fire which started at noon yesterday practically destroyed the building at Nos. 325 and 327 East Second street, ruined the stocks and machinery of two manufacturing firms, caused water damage to several adjoining buildings, and started an incipient panic in a nearby tenement-house.

The monetary damage is estimated in the neighborhood of \$25,000. The larger part of this was sustained by the Leavitt-Bartholomew Company, J. W. Winnett and L. C. Bacon. The Leavitt-Bartholomew Company occupied a large part of the structure for their chandelier and fixture plant, while the furniture shop of Winnett occupied the rest of it. Bacon owned the building.

Leavitt-Bartholomew's portion was crowded to the roof with expensive goods of all sorts. A member of the firm said that the house had practically completed getting in a year's supply, and was crowded with extensive stock, within the circumference of the loss of the Leavitt-Bartholomew Company is placed at \$15,000, half covered by insurance.

DAMAGES SUSTAINED.

Winnett fixed his damage at \$9,000, with but \$3,000 insurance. Expensive machinery must have formed the best share of his invested capital, for it would scarcely appear that his furniture stock, within the circumference of his rooms there could have been rated at that. The building is a five-story frame structure, which the fire department considers high. The first alarm was turned in at 12:15.

Winnett fixed his damage at \$9,000, with but \$3,000 insurance. Expensive machinery must have formed the best share of his invested capital, for it would scarcely appear that his furniture stock, within the circumference of his rooms there could have been rated at that. The building is a five-story frame structure, which the fire department considers high. The first alarm was turned in at 12:15.

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

BOARD OF TRADE TO DISCUSS PARK.

MEETING SCHEDULED TUESDAY BY COMMITTEE.

Municipal Affairs in General Will Receive Attention from Prominent Residents and Business Men—The Wrecking Crews Clear Tracks at Scene of Double Disaster.

Office of The Times, No. 21 E. Raymond Ave., PASADENA, July 29.—The Board of Trade will hold, Tuesday evening, the first of the quarterly open meetings which will be made a regular part of the year's work of the organization from now on. The meeting will be held at Hotel Maryland and the committee having the arrangements in charge is now busily at work preparing the programme.

No announcement has as yet been made concerning the speakers who will be present, but it is thought at least one or two outsiders will be invited. According to present plans a great part of the evening will be given up to informal discussion of current topics of municipal interest and the committee hall will come in for prominent consideration.

The Arroyo Seco Park will also be discussed and probably some of the men who are engaged in the work of pushing the project along will be asked to make address.

The Colorado-street park project is also appointed for consideration and steps will be taken which will result in active operations being undertaken in the immediate future.

MESSINGER TUMBLES.

Guy L. Holmes, a messenger boy, residing at Lamanda Park, fell from his wheel this afternoon, fracturing a badly bruised head in consequence. The mishap occurred at the corner of North Oak and Avenue 10, when the boy was riding down the hill at a lively pace and attempted to turn north onto Oak.

He did not realize how fast he was going and was carried clear across the street to the gutter on the west side. In the attempt to turn, his wheel slipped and he fell, striking his head against the curb.

SEEKERS AFTER AIR.

The following new guests registered at Britton's Camp today: Thornton Fitzhugh, Los Angeles; H. D. Bale, Altadena; J. P. Ray, Los Angeles; J. B. Smith, Los Angeles; Lester Moore, Los Angeles; D. J. Illinger, Los Angeles; J. A. Douglas, Los Angeles; Roder B. McMillen, Evanston, Ill.; George C. Brainerd, Pasadena; W. D. McDowell, Pasadena; H. C. Little, Pasadena; Harold Rohrer, Pasadena; Edward Haskell, Pasadena; Hanson Lisk, Pasadena; Wright Gouger, Pasadena; Al. Barbad, Pasadena; A. W. Riche, Los Angeles; Miss Alice Van Vleet, Los Angeles; Mrs. Paul McPherson, Los Angeles; E. B. Rowan, Los Angeles; Kenneth Mace, Los Angeles; Anna Fitzhugh, Los Angeles; Minerva Hudson, San Luis Obispo; J. M. Fitz Hugh, Los Angeles.

WRECK DEBRIS REMOVED.

Wrecking crews of the Pacific Electric and Southern Pacific companies worked all night last night clearing away the wreckage at the scene of yesterday's collision at Ononta Park, and today the last traces of the tragedy have disappeared. Within a few hours after the wreck occurred the Southern Pacific company had a powerful crane at work and the ditched locomotive was raised and placed on the track. Traffic over the line of the Pacific Electric Company was delayed but a few hours. The cars were being out of shape so badly that it was necessary to replace one length, but as soon as that was done the cars were able to run as usual.

PASADENA BRIEF.

A. R. Clock imbued too freely of the cup that cheers last night and caused such a disturbance on the street that Policemen Slade and Nichols took him to the Police Station. Although he chose Saturday night for his celebration, he did not have money enough left when he got through to put up a bail and was forced to stay in jail and today in jail. He will have a chance tomorrow morning to explain to Police Judge McDonald how it all happened.

The suggestion that a picnic park be laid out in the Arroyo Seco has met with favor from Santa Anita and has been brought up for discussion at the open meeting of the Board of Trade. The suggestion was first made by a member of the Board of City Commissioners and was met with instant favor. It is possible that the project may be taken up independently of the arroyo park plan. In this case the park will probably be brought to a head within the next few weeks. The idea is to provide a ground in the arroyo, where societies and private parties can hold picnics without inconveniencing any one.

East Pasadena street improvements will be carried on extensively during the next few months and by winter time it is hoped that the new section will be as well improved as the old one. The Colorado-street boulevard idea is meeting with great favor and the people are anxious to see the "progress" has been taken as the watchword of the citizens. Undoubtedly several representatives of East Pasadena will be heard Tuesday night at the Board of Trade meeting.

A coyote has been visiting North Pasadena the past two nights, and people who keep chickens have barricaded their gates to keep out the marauder. The animal made his appearance last night before last. Mr. Mills of Dakota street was awakened by the squawking of his chickens, but thinking that a dog was wandering around the pens and knowing that they were so strongly built that nothing could get through, he paid no attention to the noise. Last night the same thing happened and he concluded to investigate. He was just in time to see a good-sized coyote jump over the fence and run down the road.

The Rev. J. W. Coultas, pastor of the South Pasadena Methodist Church, exchanged pulpits with Dr. A. W. Lamport of the First Methodist Church last evening. The Rev. Mr. Coultas delivered a powerful sermon.

Ben Reed, one of the United States forest rangers who was dropped when the Federal authorities decided to cut down the force in the San Gabriel reserve, has been appointed ranger in charge of Mt. Wilson. The action was taken at the earnest solicitude of land holders in the neighborhood of the reserve who felt that their property was endangered by having the territory unprotected. Reed will have charge of the property surrounding the observatory. Although he has been regularly appointed by the government, he will be paid by those who asked for his appointment.

The police are out in earnest after the men who leave unlighted obstacles in the streets at night, and they have made a number of arrests within the past few weeks. There is a city ordinance which provides that all ob-

LIFE CREW BUSY AT LONG BEACH.

MAN SEIZED WITH CRAMP WHILE ATTEMPTING RESCUE.

Lifeboat Overturns and Two Occupants Are Swept Away by Big Breaker While Trying to Save Second Man—Many Narrow Escapes Force Strict Observance of Line.

LONG BEACH, July 29.—Hurled from their lifeboat by a twenty-foot breaker, the crew, Hewson and Vockrah, did not forget their duty this morning, but swam to the rescue of H. J. Daves, who, seized with a cramp, was at the mercy of a tide-rip, and laid gone under twice.

On his third appearance Hewson and Vockrah, after a hard struggle, brought Daves ashore unconscious. He had taken a considerable quantity of water, and it was two hours before he was restored.

Daves placed his own life in peril in an attempt to go to the relief of a stranger, who was in partial distress, but who was able to get ashore unaided.

For the week past the tides have been running strong, and at times tide-rips have been in evidence. Several rescues of both swimmers and sailors have been made by the life crew, and the public has been warned to be careful. The life guard says the tide-rips are at their worst this morning, but about 10 o'clock came down the beach to mingle with the crowd west of the pier.

The breakers were rolling in from ten to twenty feet high, and breaking with a thunderous roar. Daves, looking seaward, saw a wave overhelm a swimmer, and after it passed, the man threw up his hand in distress, and Daves, who is a professional swimmer, swam to his aid.

He assisted him to the life-line, and just then felt his feet go from under him, and his battle for life began. The life guard says the tide-rips are at their worst this morning, but about 10 o'clock came down the beach to mingle with the crowd west of the pier.

DESPERATE WIFE DRINKS POISON.

HUSBAND DASHES BOTTLE FROM HAND JUST IN TIME.

Lips and Throat of Avalon Woman Are Badly Burned, but She Does Not Drink Enough to Produce Death—Domestic Quarrel Is the Cause of Attempt at Suicide.

AVAILON, July 29.—A fatal tragedy was narrowly averted last night, when Andrew Radich dashed a bottle of carbolic acid from the lips of his wife and prevented her from swallowing much of the poison. The woman's mouth was badly burned, and she was taken to the hospital, where she is now recovering.

The life guard says the tide-rips are at their worst this morning, but about 10 o'clock came down the beach to mingle with the crowd west of the pier.

The breakers were rolling in from ten to twenty feet high, and breaking with a thunderous roar. Daves, looking seaward, saw a wave overhelm a swimmer, and after it passed, the man threw up his hand in distress, and Daves, who is a professional swimmer, swam to his aid.

He assisted him to the life-line, and just then felt his feet go from under him, and his battle for life began. The life guard says the tide-rips are at their worst this morning, but about 10 o'clock came down the beach to mingle with the crowd west of the pier.

The breakers were rolling in from ten to twenty feet high, and breaking with a thunderous roar. Daves, looking seaward, saw a wave overhelm a swimmer, and after it passed, the man threw up his hand in distress, and Daves, who is a professional swimmer, swam to his aid.

WHAT WILL THE BABY BE?

OFFSPRING OF VIRTUOSI GIVES RISE TO WONDER.

Students of Heredity Interested in Birth of Lhevinne Infant—Parents Musical Prodiges, and Probable Career of Child Causes New Yorkers to Speculate Concerning It.

NEW YORK, July 28.—Students of heredity are interested in the announcement that Mrs. Lhevinne has given birth to a son in Russia. Mrs. Lhevinne is the wife of Josef Lhevinne, a piano virtuoso, and she herself is a performer of reputation in her own country.

It is a singular fact that marriages between musical geniuses have not been fruitful. Among the noteworthy unions were those between Robert Schumann, the composer, and Clara Wieck, the pianist; De Beriot, the violinist, and Mme. Mailbrun, the singer; Eugene d'Albert and Teresa Carreno, both famous as pianists; and Theodore Leschetzky, the pedagogue, and his pupil, Anette Eslopf.

There was no offspring of any of these marriages. If there is anything in heredity the Lhevinne baby should be a great musical genius. His father has been taken up as the successor of Paderewski and Rubinstein. His mother, though little known here, is a popular favorite in a country of great pianists. She was born of Dutch parents in Moscow in 1855. Her musical education began in her sixth year, and she entered the Moscow Imperial Conservatory. In her twelfth year she made her first public appearance, playing a Chopin nocturne with orchestral accompaniment under Sazanoff's direction. In her eighteenth year she was graduated as gold medalist of the piano class of the Moscow Conservatory, and at the same time she received a diploma and highest honors as a teacher of mathematics from the Moscow University.

Shortly after she was graduated she married Lhevinne, who had been her teacher at the conservatory. Her public appearances have been frequent on the continent. She has made individual tours of Russia and Holland, and has appeared with her husband in ensemble concerts in Paris, Berlin and other continental capitals. Arthur Nikisch, who heard her in St. Petersburg, invited her to Vienna in 1902 to play with his orchestra.

During her husband's American tour next season she will appear with him, playing the Brahms intermezzo for two pianos. She has composed several new compositions for two pianos recently written by Caesar Cui, the celebrated Russian composer, for the special use of the Lhevinne during their joint American tour.

Aaron Burr in Prison.

Even to his jailer Burr was the Grand Seigneur whose rights there was none to dispute. "I hope, sir," ventured that official at their first encounter, "that it would not be disagreeable to you, if I should lock this door after dark?"

"That is our custom, sir," continued the jailer, "to lock the doors at eight o'clock. I hope, sir, you will have no objection to conform to that?"

"That, sir," answered Burr, "I am loath to do, but I will conform to it to go to bed until 12 and always burn two candles."

"Very well, sir—just as you please," agreed the jailer. "I should have been glad if it had been otherwise; but as you please, sir."—(Frederick Trevor Hill, in Harper's Magazine.)

Sad Reunion of Veterans.

The survivors of the Nineteenth Pennsylvania volunteer regiment faced the inevitable at their reunion held in Philadelphia a few days ago. This regiment was nearly annihilated in the Civil war. It participated in the battle of Gettysburg and fought at Mine Run, after which engagement the few members left were transferred to another regiment. There are now less than thirty of the old Nineteenth living, most of them so enfeebled that they cannot leave their homes, and they resolved not to attempt another meeting. "Boys," said Col. Davis, their leader, "we are getting too old, and those of us that are able to get around are so scattered that we cannot get together any more. This is our last reunion. We have got to bid one another good-by." No one will be surprised that many tears were shed at this point.—(Leslie's Weekly.)

Establishing Her Identity.

She walked into a branch bank on upper Broadway, and pushed a check through the teller's window. "I have a check for \$100," said the woman. "I have it in my bag. Aren't you the father of the Smith family that has a flat in the Pilemen apartments?"

"Well, I am the red-headed janitor for your wife's always complaining about. When you left home this morning, didn't you tell me to tell your children get fighting with that old fury in the basement, don't quarrel with her. Wait till I get home and let me tell to her." Now if you think you can get the best of an argument with—

"You don't, eh?" said the woman, with fire in her eyes. "Aren't you the father of the Smith family that has a flat in the Pilemen apartments?"

"Well, I am the red-headed janitor for your wife's always complaining about. THE CITY IN BRIEF

NEWS AND BUSINESS.

Mrs. Denman Passes.

Mrs. Mary J. Denman died suddenly yesterday of heart disease at the residence of her son, Charles S. Denman, at Des Moines, Iowa. She was the widow of A. N. Denman, late resident of Hollywood. Two other sons reside at Tacoma, Wash. Died Unattended.

Mrs. Lena Santa was found dead in a house at 1425 East Twenty-second street about 1:30 o'clock yesterday afternoon. A physician examined the body and announced that her death was due to heart failure. According to those who live in the neighborhood, Mrs. Santa and two children rented the house recently. She has been attacked frequently by heart trouble. She leaves two small children.

Made Threats to Kill.

Warner Martin was arrested by a deputy constable in a Commercial street rooming-house last evening on the charge of threatening to kill one of the inmates. Martin declared that the woman had "done" him and that he had not lived in Kansas City for nothing. Martin says that he came to Los Angeles from Missouri three days ago and has been living with D. M. Ward at Avenue 29 and Daly street. The officers say he declared he would kill the woman even after arrest.

Patriots Elect.

At a meeting of the "Junta Patriótica de Juarez" held yesterday afternoon, the following officers were elected: President, R. F. Sepulveda, re-elected; Vice-president, Martin G. Arutire; Secretary, C. M. Vozas; Treasurer, John A. Larroche; Assistant Secretary, Federico Sepulveda; Executive Committee, R. F. Del Valle, Roberto B. Dominguez, Romulo Pico, Tomas Botello, O. A. Valla, Alejandro Moreno, J. P. Martinez, Arturo A. Cuen. The Mexican Consul, H. de la Cruz, was unanimously elected honorary president. The next meeting will be held Wednesday, August 1, at 7:30 o'clock p.m., at No. 425 Amelia street.

REPORT SHOWS COVERED LOSS.

TOTAL QUAKE INSURANCE IS FIGURED OUT.

New York Superintendent Gives the Amount of Policies as \$222,836,307 and With Reinsurance and Salvage Brings the Net Sum of \$132,823,067, the Hartford Suffering Most.

THE ASSOCIATED PRESS-F.M.I.

ALBANY, July 29.—State Superintendent of Insurance Otto Kelsey tonight made public the results of his investigation as to the losses of fire insurance companies in the San Francisco disaster.

All joint stock fire and international and marine insurance companies transacting business in the State were called on for a sworn statement as to their losses in California. The companies were asked for the gross amount of insurance involved in risks destroyed or damaged, the deduction for amount to be recovered from reinsurance, the deduction for estimated salvage, the total deduction and the net amount of loss as shown by the records, June 30, 1906. The New York State companies, forty-seven in number, show the gross amount of insurance involved at \$41,116,082; the estimated salvage, \$7,131,124; and the actual amount of loss, \$27,184,958.

Returns from other joint stock, fire and fire marine insurance companies, eighty-four in number, show the gross amount of insurance, \$80,423,704; reinsurance to be recovered, \$22,130,167; estimated salvage, \$11,258,426; actual amount of loss, \$15,985,111.

The foreign companies, thirty-two in number, made these returns: Gross insurance involved, \$101,302,832; reinsurance to be recovered, \$22,241,908; estimated salvage, \$15,218,959; actual loss, \$27,041,965.

The gross amount of insurance involved by all companies was \$222,836,307; the reinsurance, \$45,241,771; salvage, \$24,214,968; and actual loss, \$132,823,067. The company with the largest net losses is the Hartford Fire of Connecticut, according to the report. Its loss is \$1,154,701.

BOY BURGLAR'S WORK.

Residence and Shop Ransacked by a Youthful Thief Whose Identity Is Not Known.

B. N. Forrest and Mark Bunce suffered losses from the operations of the "barefooted" burglar yesterday. The clever young thief entered the Forrest home, No. 227 East Twenty-first street, about 2:30 o'clock yesterday afternoon and secured \$25 and some valuable jewelry. Prior to the robbery of the Forrest house the young thief broke into Bunce's barber shop, No. 241 Central avenue, and secured barber's tools valued at nearly \$100.

Immediately after the reports of the robberies reached Central station, detectives were detailed on the case. They found conclusive evidence that the burglaries were the work of the "barefooted" thief. No clue was detected that would lead to the disclosure of the lad's identity further than is already in the hands of the police.

While Mr. and Mrs. Forrest were attending church services yesterday afternoon, neighbors saw a boy dressed in ragged clothes, a dark slouch hat, and without shoes wander aimlessly to the rear of the Forrest home. The lad did not respond for some distance, but when he did he hastened away from the scene. Nothing was thought of the affair at the time, but when the burglary was reported they recalled the incident.

When Mr. and Mrs. Forrest returned to their home they found that the house had been entered from the rear and that the intruder had rummaged through all the closets and bureau. A closer inspection of the house revealed that \$25 had been taken from a dresser drawer. Also that a watch and other articles of jewelry were missing.

By means of an old cold chisel the thief had pried off the hinges of a screen door. He then pried up a small window leading to the yard and in that manner got into the house.

The burglary of the Bunce barber shop was even more daring. Shortly before 4 o'clock yesterday morning a man passing along Central avenue saw a lad attired as the thief who entered the Bunce shop, sneaking behind a near-by house. He reported his observation to a night watchman, but the special officer could not locate the lad and left thinking that there was nothing in the report. From what the officers now learn the "barefooted" thief waited until the office left and then unlocked the front door by means of a pass key.

Once in the shop the burglar broke into the cigar case and stole several hundred cigars. He then collected all the barber tools that were of any value and broke into the cash drawer. Bunce had removed the money from the drawer when he left the shop the night before so that the thief secured no money.

An attempt to rob a store in the vicinity of Fifth street and Central avenue about 5 o'clock was reported to the officers, but the thief was frightened away. It is evident that the burglar intended a raid on all small shops along Central avenue in the neighborhood of his robbery, but was deterred by being discovered twice, the police say.

VITAL RECORD DEATHS, MARRIAGES.

Deaths.

WEISS. In this city, July 27, 1936, Mrs. Anna Weiss, aged 41 years, beloved mother of Ralph Weiss and Miss Weiss. Funeral from Brown Bros. Monday, 2:30.

PRIDHAM. Mrs. Mary Esther Pridham, beloved wife of William Pridham, died Sunday, July 26, 1936, at 2 o'clock. The funeral services will be held in Brown Bros. chapel at 3 o'clock Tuesday morning, July 27. The remains will be shipped to San Francisco for interment.

ADAMS. At his residence, No. 5123 Shelton street, July 29, 1936, David J. Adams, beloved father of Albert O. Adams, William H. Adams, Mrs. William, Sissy and Mrs. Mary J. Adams. Furniture Prices That Prove

"Match Them If You Can"

Comparison is the Test We Ask

If we can but induce you to compare our prices for furniture with prices asked elsewhere, we are sure of your patronage. We definitely claim that we undersell any other reliable house in Los Angeles. Our location, our low expenses and our methods of business management enable us to do this. You'll consult your own interest when you compare.

Save 25 per cent. on a Hall Tree now. Every Golden Oak Hall Tree in the store is subject to this reduction. We show them in very artistic designs. The original values are not inflated—the reductions genuine. Match them if you can:

\$9.75 Hall Trees. Special..... \$5.57

\$15.25 Hall Trees. Special..... \$11.44

\$20.75 Hall Trees. Special..... \$17.07

\$25 Hall Trees. Special..... \$21.75

\$30 Hall Trees. Special..... \$26.25

\$40 Hall Trees. Special..... \$35.00

Today and Tomorrow

The two last days of our big pre-inventory sale—and for the best array of good things ever offered at any sale, just look over our adv. in yesterday's paper.

Half Price for Panamas

Nothing to bar you from enjoying hat comfort the rest of the season. Our entire line of guaranteed genuine Panama hats must be cleared out at once. We have resorted to the half-price method. These hats are new, stylish blocks. They'll all go. Get yours today.

Sale of Stylish Straws

Rather than run the risk of carrying over a single straw hat till next season, we have dropped the prices away down, now, when you need a hat in the worst way. Every hat represents the best of this season's styles. The reductions quoted are genuine.

\$1.50 and \$1.75 values reduced to \$1.

\$2 values reduced to \$1.50.

\$2.50 and \$3 values reduced to \$2.

\$4, \$5 and \$6 values reduced to \$3.
